Ptolemy's Almagest is one of the most influential scientific works in history. A masterpiece of technical exposition, it was the basic textbook of astronomy for more than a thousand years, and still is the main source for our knowledge of ancient astronomy. This translation, based on the standard Greek text of Heiberg, makes the work accessible to English readers in an intelligible and reliable form. It contains numerous corrections derived from medieval Arabic translations and extensive footnotes that take account of the great progress in understanding the work made in this century, due to the discovery of Babylonian records and other researches. It is designed to stand by itself as an interpretation of the original, but it will also be useful as an aid to reading the Greek text.

The Language of the Birds is a masterpiece of Eastern Turkish literature (now Uzbek), and was written by one of Central Asia's most prominent poets, Alisher Nava'i, shortly before his death in 1501. The story begins with the birds of the world realizing they are far from their king and so they begin their arduous journey with the assistance of the wise bird Hoopoe as their guide. Hoopoe listens to their complaints and excuses along the way and encourages them to seek true life even though the journey is sometimes painful. This epic poem in prose form contains many anecdotes and stories from the oral history of the Silk Road and Islam. Through this story, people are exhorted to rise above any excuse they might have in their spiritual pilgrimage. Alisher Nava'i (1441-1501) is renowned in Central Asia for his numerous writings and lasting influence in Uzbekistan as well as the contemporary Central Asian republics. In modern Uzbekistan, Nava'i is revered above all other poets and his

presence is still found - streets, museums, and even a province and city are name after him. His proverbs are found throughout Central Asia and he is considered the father of the Uzbek language. His words for peace and against oppression are as timely today as they were 5 centuries ago. Nava'i lived in Herat, Afghanistan. His writings, endowments, and his life example have had lasting influence in Central Asia. In *The Language of the Birds*, we are introduced to what Nava'i thought is important in life. It is a world of love that goes beyond the rational and is ready to endure anything for the beloved. This book is for anyone who values great historical literature, as well as those needing inspiration in his or her own pilgrimage in life.

The poetry of Salim Barakat aims to recapture the ancient oral culture of the *oeKurdu*, and, in so doing, re-invent a distinctly Kurdish culture. Through poetic innovation, this intensely Kurdish poet brings modernity to ancient Kurdish structures. This book provides an overview of new developments in modern Arabic poetry, as seen through the creativity of its leading exponents, Barakat and Mahmud Darwish, as well as the older Syrian poet Adunis. Its unsurpassed translations of the work of these poets open up possibilities for the reader to enjoy first-hand what modern Arabic poetry has to offer. Translating Barakatâ (TM)s poetry, and

understanding something of what this great poet has to say has thrown new light on the output of his friend Mahmud Darwish. It becomes clear that the Palestinian poet uses a semblance of Barakatâ (TM)s Kurdish Shahnama and also his Ballade, genres that hail from orality. Analyzing Darwishâ (TM)s â oeFewer Roses, â and â oeThe Hoopoe, â we find that the former is an epic with 50 episodes telling of the wanderings of Palestinians in exile. â oeThe Hoopoeâ is specifically a Sufi poem based in the literary Sufism of medieval poets. Darwish has left us with clear instructions on how to translate his poetry, which this book carefully follows.
