In this #1 international bestseller, a young woman leaves everything behind to work as a librarian in a remote French village, where she finds her outlook on life and love challenged in every way. Prudencia Prim is a young woman of intelligence and achievement, with a deep

knowledge of literature and several letters after her name. But when she accepts the post of private librarian in the village of San Ireneo de Arnois, she is unprepared for what she encounters there. Her employer, a book-loving intellectual, is dashing yet contrarian, always ready with a critique of her cherished Jane Austen and Louisa May Alcott. The neighbors, too, are capable of charm and eccentricity in equal measure, determined as they are to preserve their singular little community from the modern world outside. Prudencia hoped for friendship in San Ireneo but she didn't suspect that she might find love—nor that the course of her new life would run quite so rocky or would offer challenge and heartache as well as joy, discovery, and fireside debate. Set against a backdrop of steaming cups of tea, freshly baked cakes, and lovely company, *The Awakening of Miss Prim* is a distinctive and delightfully entertaining tale of literature, philosophy, and the search for happiness.

A sequel to *The Death of Christian Culture*, this spiritual treatise covers social, cultural, and political topics. It explores the importance of religious knowledge and faith to the health of a culture, provides a historical sketch of the change in cultural and educational standards over the last two centuries, and illustrates how literary and other visual arts either contribute to a culture or conspire to tear it down. Compared to a series of sermons, this analysis explains that there is a continuing extinction of the cultural patrimony of ancient Greece, Rome, medieval Europe, and the early modern period of Western civilization, owing to the pervasive bureaucratization, mechanization, and standardization of increasing materialism.
