All organizations recognise the importance of strategy creation and execution: strategy is the process of developing the corporate future. Unfortunately, it often doesn't generate the required results. This book presents a new 8-step process for creating a strategy that really delivers. For each step, the book describes the key parts of the process, shows how to avoid the potential pitfalls, and points to the most useful strategic models and frameworks. Readers can see the process in action by following the intriguing case study that unfolds throughout the book. One of the critical determinants of strategic success is to see strategy not just as planning but as a process that involves dialogues with multiple stakeholders, both within and outside the company. This concept is integrated into every phase of the 8-step approach and is at the heart of its effectiveness in creating strategy that delivers in practice.

No matter how far behind Miller's students might be when they reach her 6th grade classroom, they end up reading an average of 40 to 50 books a year. Miller's unconventional approach dispenses with drills and worksheets that make reading a chore. Instead, she helps students navigate the world of literature and gives them time to read books they pick out themselves. Her love of books and teaching is both infectious and inspiring. The book includes a dynamite list of recommended "kid lit" that helps parents and teachers find the books that students really like to read.

One of America's leading brand strategists shares her step-by-step program for creating an unforgettable identity in today's marketplace. Do you ever go to work and think to yourself "there must be more?" Or feel that your true talents and abilities aren't being utilized, or even recognized? Are you a freelancer or entrepreneur who isn't sure how to rise to the top in today's competitive environment? Wouldn't it be empowering to be able to work in a field you feel passionately about and be successful and well paid? In Make a Name for Yourself, Robin Fischer Roffer shows you how to develop a unique, personal brand strategy for success by identifying your extraordinary attributes, thinking about your values and passions, and by learning how to use them in today's marketplace. In short, you'll uncover a focused direction for your career that celebrates you. In the information age, brand marketing — the process by which a product creates an emotional connection with its audience and sets itself apart from the crowd — is more important than ever. Roffer knows that branding isn't just for big corporations or products like Nike, Coke, or Yahoo. She is not only a pioneer in this field, she has used brand marketing strategies to catapult her own career. In Make a Name for Yourself she shows you how you can brand your own unique traits and talents for career success and personal fulfillment. In a step-by-step program she covers: \* Unearthing your authentic self to develop a brand that reflects your natural talents, abilities, and passions \* Defining your long-term career goals and dreams \* Adapting and selling your brand to your target market \* Identifying and overcoming personal roadblocks \* Packaging yourself to reflect your chosen brand image \* Launching, maintaining, and building your brand Inspiring case studies, analyses of well known brands, and thought-provoking exercises will help you create all the essential brand elements. And unlike other career advisors who simply push networking or other external tools, Roffer also offers methods for working on your inner self to overcome fears and decipher realities. Make a Name for Yourself is for anyone starting out in the workforce, beginning their own business, changing careers, or trying to make it in the corporate world.
