Frontier in 2003 and I still enjoy the heck out of my little truck. It has a manual transmission and old-school 4 wheel drive, but it's so reliable, I don't care. Yes, it's a bit underpowered, but the low end of the manual transmission is incredible.

Nissan updated the Frontier for the 2020 model year with a new 3.8-liter V6 and a nine-speed automatic, with the manual transmission being discontinued. The engine replaces both the outgoing 4.0L V6 and the 2.5L I4, and produces 310 hp (231 kW), although torque remains the same. [33]
