Everyone's journey through cancer is different. Here we try to portray the experience through the words of those who know it best. This article has been drawn together from the memories, reflections and stories that patients have shared with us. By sharing these stories, we hope to show a little of what it can be like to go through cancer.

This book is a remarkably honest account of a long journey through cancer, from the disbelief at the diagnosis of acute myeloid leukaemia to ultimate recovery. It is often a very uncomfortable read, but the wonderfully easy, conversational style of writing and gentle humour keeps it from becoming a simple tale of woe.

Surely not 'a journey through cancer'! Who's been peeping in my bed? is my story about living with the disease; a disease that was looked upon like leprosy in the early days. Now, people are living with cancer and opening a new window in their world. I have tried to express in these few words how cancer opened my eyes to the things that ...

I had my first post-chemo CT scan in September 2019, about five weeks after completing my third cycle of BEP. I was due to have an appointment with my oncologist a few days later, however on the morning of my appointment, my specialist nurse called to ask if we could reschedule for a week later as they needed to speak to a surgeon before they could give me full feedback from the scan.
