The Court of Appeal has urged the Civil Procedure Rule Committee to consider preventing defendants setting off costs in cases covered by qualified one-way costs shifting (QOCS). The court ruled last week that it was bound by a 2017 decision to allow a set-off, even though Lord Justice Males said there was “powerful case” for saying it was wrongly decided.

How does a prison achieve institutional order while safeguarding prisoners' rights? Since the early 1960s, prison reform advocates have aggressively used the courts to extend rights and improve life for inmates, while prison administrators have been slow to alter the status quo. Litigated reform has been the most significant force in obtaining change. An Appeal to Justice is a critical study of how the Texas Department of Corrections was transformed by *Ruiz v. Estelle*, the most sweeping class-action suit in correctional law history. Orders from federal judge William W. Justice rapidly moved the Texas system from one of the most autonomous, isolated, and paternalistic systems to a more constitutional bureaucracy. In many respects the Texas experience is a microcosm of the transformation of American corrections over the past twenty-five years. This is a careful account of TDC's fearful past as a plantation system, its tumultuous litigated reform, and its subsequent efforts to

balance prisoner rights and prison order. Of major importance is the detailed examination of the broad stages of the reform process (and its costs and benefits) and an intimate look at prison brutality and humanity. The authors examine the terror tactics of the inmate guards, the development of prisoner gangs and widespread violence during the reforms, and the stability that eventually emerged. They also detail the change of the guard force from a relatively small, cohesive cadre dependent on discretion, personal loyalty, and physical dominance to a larger and more fragmented security staff controlled by formal procedures. Drawing on years of research in archival sources and on hundreds of interviews with prisoners, administrators, and staff, *An Appeal to Justice* is a unique basis for assessing the course and consequences of prison litigation and will be valuable reading for legislators, lawyers, judges, prison administrators, and concerned citizens, as well as prison and public policy scholars.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

comprehensive review of costs ever carried out in England and Wales by Lord Justice Jackson in 2009 and benefited from the assistance of leading practitioners around the globe. The study analyses the principles and rules that relate to paying courts, witnesses and lawyers, and the rules on cost shifting, if any. It also notes the major ways in which litigation can be funded, identifying the global trend on contraction of legal aid, the so far limited spread of contingency fees, and the growing new phenomenon of private third party litigation funding. The study also presents the results of nine case studies of typical claim types, so as to give a first overview comparison of which countries' legal systems are cheaper or more expensive. The book further contains national chapters with in depth analysis contributed by scholars in 18 jurisdictions (Australia, Belgium, Canada, China, Denmark, England & Wales, France, Germany, Japan, the Netherlands, New Zealand, Poland, Portugal, Russia, Spain, Switzerland, Taiwan and USA) and a further chapter on Latin American jurisdictions. 'Dr Hodges, Professor Vogenauer and Dr Tulibacka have conducted an excellent and thorough comparative study of litigation costs and funding across a wide range of jurisdictions ('the Oxford study'). The Oxford study is important, because it provides both context and background for any critical examination of our own costs and funding rules... I commend this book both for its breadth and detail and also for its percipient commentary. This work will make a valuable contribution to the debate which lies ahead about how the costs and funding rules of England and Wales should be reformed in order to promote access to justice.'

From the Foreword by Lord Justice Jackson, Royal Courts of Justice, 16th July 2010
