There is no difference between %d and %i in the printf family. The ISO C standard (all references within are from C11), section 7.21.6.1 The printf function, paragraph 77 states, for the l modifier (my emphasis):. Specifies that a following d, i, o, u, x, or X conversion specifier applies to a long int or unsigned long int argument; that a following n conversion specifier applies to a ...
