Colonial New England was awash in ales, beers, wines, cider and spirits. Everyone from teenage farmworkers to our founding fathers imbibed heartily and often. Tipples at breakfast, lunch, teatime and dinner were the norm, and low-alcohol hard cider was sometimes even a part of children's lives. This burgeoning cocktail culture reflected the New World's abundance of raw materials: apples, sugar and molasses, wild berries and hops. This plentiful drinking sustained a slew of smoky taverns and inns--watering holes that became vital meeting places and the nexuses of unrest as the Revolution brewed. New England food and drinks writer Corin Hirsch explores the origins and taste of the favorite potations of early Americans and offers some modern-

Alcohol is a killer--1 of every 13 deaths in the United States is alcohol-related. In addition, 5 percent of the population consumes 50 percent of the alcohol. trade has managed to infiltrate every stratum of New World society. Curtis takes us from the taverns of the American colonies, where rum delivered both a cheap wallop and cash for the Revolution; to the plundering pirate ships off the coast of Central America; to the watering holes of pre-Castro Cuba; and to the kitsch-laden tiki bars of 1950s America. Here are sugar barons and their armies conquering the Caribbean, Paul Revere stopping for a nip during his famous ride, Prohibitionists marching against "demon rum," Hemingway fattening his liver with Havana daiquiris, and today's bartenders reviving old favorites like Planter's Punch. In an age of microbrewed beer and single-malt whiskeys, rum--once the swill of the common man--has found its way into the tasting rooms of the most discriminating drinkers.

En route he makes fascinating forays into the byways of western culture: Why were ancient Egyptians buried with beer? Why was wine considered a “classier” drink than beer by the Romans? How did rum grog help the British navy defeat Napoleon? What is the relationship between coffee and revolution? And how did Coca-Cola become the number one poster-product for globalization decades before the term was even coined?
