Set in an isolated, rundown community in the Peruvian Andes, Vargas Llosa's novel tells the story of a series of mysterious disappearances involving the Shining Path guerrillas and a local couple performing cannibalistic sacrifices with strange similarities to the Dionysian rituals of ancient Greece. Part detective novel and part political allegory, it offers a panoramic view of Peruvian society; not only of the current political violence and social upheaval, but also of the country's past and its connection to Indian culture and pre-Hispanic mysticism.

“ A thoughtfully observed travel memoir and history as richly detailed as it is deeply felt ” (Kirkus Reviews) of South America, from Butch Cassidy to Che Guevara to cocaine king Pablo Escobar to Charles Darwin, all set in the Andes Mountains. The Andes Mountains are the world ’ s longest mountain chain, linking most of the countries in South America. Kim MacQuarrie takes us on a historical journey through this unique region, bringing fresh insight and contemporary connections to such fabled characters as Charles Darwin, Che Guevara, Pablo Escobar, Butch Cassidy, Thor Heyerdahl, and others. He describes living on the floating islands of Lake Titcaca. He introduces us to a Patagonian woman who is the last living speaker of her language. We meet the woman who cared for the wounded Che Guevara just before he died, the police officer who captured cocaine king Pablo Escobar, the dancer who hid Shining Path guerrilla Abimael Guzman, and a man whose grandfather witnessed the death of Butch Cassidy. Collectively these stories tell us something about the spirit of South America. What makes South America different from other continents—and what makes the cultures of the Andes different from other cultures found there? How did the capitalism introduced by the Spaniards change South America? Why did Shining Path leader Guzman nearly succeed in his revolutionary quest while Che Guevara in Bolivia was a complete failure in his? “ MacQuarrie writes smartly and engagingly and with...enthusiasm about the variety of South America ’ s life and landscape ” (The New York Times Book Review) in *Life and Death in the Andes*. Based on the author ’ s own deeply observed travels, “ this is a well-written, immersive work that history aficionados, particularly those with an affinity for Latin America, will relish ” (Library Journal).

Andes—and one man's quest to lead them all home. “ In straightforward, staggeringly honest prose, Nando Parrado tells us what it took—and what it actually felt like—to survive high in the Andes for seventy-two days after having been given up for dead. ” —Jon Krakauer, author of *Into the Wild* “ In the first hours there was nothing, no fear or sadness, just a black and perfect silence. ” Nando Parrado was unconscious for three days before he woke to discover that the plane carrying his rugby team to Chile had crashed deep in the Andes, killing many of his teammates, his mother, and his sister. Stranded with the few remaining survivors on a lifeless glacier and thinking constantly of his father's grief, Parrado resolved that he could not simply wait to die. So Parrado, an ordinary young man with no particular disposition for leadership or heroism, led an expedition up the treacherous slopes of a snowcapped mountain and across forty-five miles of frozen wilderness in an attempt to save his friends' lives as well as his own. Decades after the disaster, Parrado tells his story with remarkable candor and depth of feeling. *Miracle in the Andes*, a first-person account of the crash and its aftermath, is more than a riveting tale of true-life adventure; it is a revealing look at life at the edge of death and a meditation on the limitless redemptive power of love.

When the Spanish invaded the Inca empire in 1532, the cult of the ancestors was an essential feature of pre-Columbian religion throughout the Andes. The dead influenced politics, protected the living, symbolized the past, and legitimized claims over the land their descendants occupied, while the living honored the presence of the dead in numerous aspects of daily life. A central purpose of the Spanish missionary endeavor was to suppress the Andean cult of the ancestors and force the indigenous people to adopt their Catholic, legal, and cultural views concerning death. In her book, Gabriela Ramos reveals the extent to which Christianizing death was essential for the conversion of the indigenous population to Catholicism. Ramos argues that understanding the relation between death and conversion

in the Andes involves not only considering the obvious attempts to destroy the cult of the dead, but also investigating a range of policies and strategies whose application demanded continuous negotiation between Spaniards and Andeans. Drawing from historical, archaeological, and anthropological research and a wealth of original archival materials, especially the last wills and testaments of indigenous Andeans, Ramos looks at the Christianization of death as it affected the lives of inhabitants of two principal cities of the Peruvian viceroyalty: Lima, the new capital founded on the Pacific coast by the Spanish, and Cuzco, the old capital of the Incas in the Andean highlands. Her study of the wills in particular demonstrates the strategies that Andeans devised to submit to Spanish law and Christian doctrine, preserve bonds of kinship, and cement their place in colonial society. "Rapid and widespread death decimated the descendants of the Inca Empire, but the mere number of the dead does not tell the story. Rather, Ramos brilliantly demonstrates that, beginning with the execution of Atahualpa, death and the dead were one of the great colonial sites of ongoing contestation about both the here and now and the hereafter. In an exquisitely researched study, Ramos traces the shift from pre-Columbian to colonial Andean funerary rituals and the differing ways that they became the center of how 'Andeans and Europeans communicated and exchanged their visions of power and the sacred,' in a true dance of death." --Thomas B. F. Cummins, Harvard University "Death and Conversion in the Andes is a highly innovative study that looks at the conquest period in a new light. By analyzing how the conception of death and death rituals changed during the early colonial period, Gabriela Ramos is able to gain many new insights into how the conquest modified indigenous beliefs. For those interested in ethnohistory and the effects of colonialism in Spanish America, this is a must read." --Erick D. Langer, Georgetown University

This wonderful detective novel is set in Peru in the 1950s. Near an Air Force base in the northern desert, a young airman is found murdered.

Lieutenant Silva and Officer Lituma investigate. Lacking a squad car, they have to cajole a local cabbie into taking them to the scene of the crime. Their superiors are indifferent; the commanding officer of the air base stands in their way; but Silva and Lituma are determined to uncover the truth. *Who Killed Palomino Molero*, an entertaining and brilliantly plotted mystery, takes up one of Vargas Llosa's characteristic themes: the despair at how hard it is to be an honest man in a corrupt society.

A narrative history of the unlikely Maoist rebellion that terrorized Peru even after the fall of global Communism. On May 17, 1980, on the eve of Peru's presidential election, five masked men stormed a small town in the Andean heartland. They set election ballots ablaze and vanished into the night, but not before planting a red hammer-and-sickle banner in the town square. The lone man arrested the next morning later swore allegiance to a group called Shining Path. The tale of how this ferocious group of guerrilla insurgents launched a decade-long reign of terror, and how brave police investigators and journalists brought it to justice, may be the most compelling chapter in modern Latin American history, but the full story has never been told.

Described by a U.S. State Department cable as "cold-blooded and bestial," Shining Path orchestrated bombings, assassinations, and massacres across the cities, countryside, and jungles of Peru in a murderous campaign to seize power and impose a Communist government. At its helm was the professor-turned-revolutionary Abimael Guzmán, who launched his single-minded insurrection alongside two women: his charismatic young wife, Augusta La Torre, and the formidable Elena Iparraguirre, who married Guzmán soon after Augusta's mysterious death. Their fanatical devotion to an outmoded and dogmatic ideology, and the military's bloody response, led to the death of nearly 70,000 Peruvians. Orin Starn and Miguel La Serna's narrative history of Shining Path is both panoramic and intimate, set against the socioeconomic upheavals of Peru's rocky transition from military dictatorship to elected

democracy. They take readers deep into the heart of the rebellion, and the lives and country it nearly destroyed. We hear the voices of the mountain villagers who organized a fierce rural resistance, and meet the irrepressible black activist Mar í a Elena Moyano and the Nobel Prize – winning novelist Mario Vargas Llosa, who each fought to end the bloodshed. Deftly written, *The Shining Path* is an exquisitely detailed account of a little-remembered war that must never be forgotten.

Set in an isolated, run-down community in the Peruvian Andes, this novel tells the story of a series of mysterious disappearances involving the Shining Path guerrillas and a local couple performing cannibalistic sacrifices.

This collection of essays associated with Mario Vargas Llosa's visits to the City College of New York offers readers an opportunity to learn about his body of work through his own perspective and those of key fiction writers and literary critics.

*Living with the Dead in the Andes* provides new data and insights informed by general anthropological theory; the extensive bibliography alone is an important contribution. Scholars working with Andean mortuary practices (and prehistory generally) will be citing these chapters for years.
