Today's savvy e-commerce business owner knows how to compete. In years past a business, shopped for the products they wanted to resell. They then purchased the items and stored them while they searched for an end user or consumer. Once the product was sold, they shipped the item to their customer and

# Download Free Dropshipping

hopefully made a profit.

This method is costly.

Besides the price of the item, the seller pays

shipping from the

manufacturer (or

distributor) to his

location. He then stores

the item, taking up

resources and space

until he resells the

merchandise. He invests

time and effort into

marketing the item and

# Download Free Dropshipping

either he or the end user pays shipping (again) to their location. All of these steps have to be factored into the price of the item to the end user. The customer will decide if the end price of the item is a bargain and is competitive. As the shipper, if the item is lost or damaged in shipping the expense of filing tracking and

# Download Free Dropshipping

claims falls on him as well. Drop Shipping is a proven way of reducing or eliminating many of these expenses, thus making the end price lower for the consumer and more profitable for the seller. With drop shipping, a seller or retailer does not purchase the item and store it for resale, but rather sells the

# Download Free Dropshipping

merchandise and ships it directly from the manufacturer to the consumer. The seller does not have to store the item or pay shipping from the manufacture to his location. He does not have to handle the item himself. This reduces chance of loss or damage and speeds up the process considerably! He needs

Download Free

Dropshipping

less start-up money

(storage rental can be very costly and a

product on hand that

moves slower than

anticipated can create a

cash flow problem right out of the gate) and can

invest more time and

money on his sales. He

also does not have to

reship the item and there

is only one shipping

expense to absorb,

# Download Free Dropshipping

lowering the price of the item and making it of more value and profit for all concerned. If there is loss or damage in shipping, it falls on the manufacturer (or distributor) to provide the documents and file any claims with the shipping company involved. Okay, so all of this sounds great, right? But how do you get

started? This eBook will
