By using the DTCO® Configuration App, you as fleet manager have the opportunity, to configure the digital tachograph from release DTCO® 3.0 on your own. Saving valuable downtime, as the DTCO® configuration in a new truck takes only a few minutes. Visiting a workshop is not necessary by using DTCO® Configuration App for simple adjustments.

DTCO® Configuration APP - VDO

The DTCO always sets the device to Break, Working Time or Available automatically, depending on the setting made by the fleet manager. If, for example, the fleet manager has used the Configuration App to preset a changeover to Break, the driver doesn't have to actively set the device to Break himself, so he can't forget to do it and have his working time continue by mistake. As well as ...
