Macroeconomics in Context

Macroeconomics in Context lays out the principles of macroeconomics in a manner that is thorough, up to date, and relevant to students. Like its counterpart, Microeconomics in Context, the book is attuned to economic realities—and it has a bargain price. The in Context books offer affordability, engaging treatment of high-interest topics from sustainability to financial crisis and rising inequality, and clear, straightforward presentation of economic theory. Policy issues are presented in context—historical, institutional, social, political, and ethical—and always with reference to human well-being.

"This resource book discusses the economic arguments that could (and could not) be put forth to support the case for investing in the social determinants of health on average and in the reduction in socially determined health inequalities. It provides an overview and introduction into how economists would approach the assessment of the economic motivation to invest in the social determinants of health and socially determined health inequities, including what the major challenges are in this assessment. It illustrates the extent to which an economic argument can be made in favour of investment in 3 major social determinants of health areas: education, social protection, and urban development and infrastructure. It describes whether education policy, social protection, and urban development, housing and transport policy can act as health policy"--

Macroeconomics in Context

It's the revolutionary world history study guide just for middle school students from the brains behind Brain Quest. Everything You Need to Ace World History . . . kicks off with the Paleolithic Era and transports the reader to ancient civilizations—from Africa and beyond; the middle ages across the world; the Renaissance; the age of exploration and colonialism, revolutions, and the modern world and the wars and movements that shaped it. The BIG FAT NOTEBOOK™ series is built on a simple and irresistible conceit—borrowing the notes from the smartest kid in class. There are five books in all, and each is the only one book you need for each main subject taught in middle school: Math, Science, American History, English, and World History. Inside the reader will find every subject's key concepts, easily digested and summarized: Critical ideas highlighted in marker colors. Definitions explained. Doodles that illuminate tricky concepts. Mnemonics for a memorable shortcut. And quizzes to recap it all. The BIG FAT NOTEBOOKS meet Common Core State Standards, Next Generation Science Standards, and state history standards, and are vetted by National and State Teacher of the Year Award-winning teachers. They make learning fun, and are the perfect next step for every kid who grew up on Brain Quest.

United Nations World Economic Outlook

This is the United Nations definitive report on the state of the world economy, providing global and regional economic outlook for 2020 and 2021. Produced by the Department of Economic and Social Affairs, the five United Nations regional commissions, the United Nations Conference on Trade and Development, with contributions from the UN World Tourism Organization and other intergovernmental agencies.

Industrial Revolution

Between the 18th and 19th centuries, Britain experienced massive leaps in technological, scientific, and economical advancement

International Economics

This introduction to all aspects of international economics, business and finance is the clearest guide available to the economics of the world we live in. Written in a highly engaging style, packed full of up-to-the minute, real-world case studies and pitched at introductory level, the book does an expert job of drawing students in and will leave them equipped with a comprehensive toolkit of methods and essential facts. Now in its fourth edition, Global Economic Issues and Policies reflects continuing changes in the world economy and in the analysis of international economics. Chapter introductions, pedagogy and data have all been thoroughly updated throughout, including the addition of a new 'Issues & Policies Notebook' feature. Key topics for expansion and revision include: Evolution of Comparative Advantage Import Quotas and Subsidies Services in Regional and Multilateral Trade Agreements Balance of Payments Accounting Unconventional Central Bank Policies Territorial versus Worldwide Taxation and "Tax Inversions" The role of Foreign Exchange Markets and Exchange-Rate Arrangements Public Policy Issues in International Money and Finance The text, which also offers a comprehensive companion website, is suitable for any introductory module in international economics and business, whether taught as part of an economics, business or international studies program. The text is also the ideal MBA level introduction to the global economy.
