Sasha's crazy. He knows he's crazy, his uncle and best friend both know he's crazy, and for a long time, they'd accepted it and loved him anyway. But now, now things are changing. Sasha's migranes are getting worse, there's a voice inside of his head that keeps demeaning him, and for some screwed up reason, the only thing that cures these migranes, is Sasha's own damn blood--which he has to resort to masochism to extract. This is not okay; this is quickly becoming not okay and Sasha doesn't know what the hell he's supposed to do. What's happening to him? And how much longer

can Sasha's uncle and best friend deal with it before they just give up on their mentally-disturbed loved one for good? And that's not even the worst of it. Oh no, not in the least. There are people after Sasha, two men wearing black cloaks. They attacked him on a dark road, and now these two are telling Sasha that he's a nightcrawler like them... and it's time to come home. The leader calls himself Kheva, but to Sasha, he's Master. The second is called Kel, but to Sasha, he's brother. And who is Sasha? He's a nightcrawler like them... but until he earns his place... he's merely their unwilling slave.

Two months after what is now known as 'The Proxy Incident' has every chimera who was present during Elish's discipline living in fear. Elish and Jade are taking great joy in personally crafting punishments for the family members that have wronged them, and without Silas to stop the two, they're free to do whatever they want. But though Jade has been having fun being involved in Elish's plans, the more time that goes on, the more Jade realizes there is something wrong with his husband. Elish isn't acting like his normal self, and on top of that, Jade suspects the new King of Skyfall is hiding something from him. And far away from Skyfall, Reaver and Killian are both trapped in a distant land, with an unexpected third party. Not only do they have to try and make their way back to civilization in a land of mutated monsters and proxy worms, but Reaver finds himself drawn off of their planned path towards someone unknown: a suspected born immortal who has left them a trail of macabre bread crumbs.

Skyfall, the only city that King Silas spared when he started the Fallocaust. It is a safe haven from the radiation, and a place where there is plant life, electricity, protection; things never seen or felt in the lawless, savage greywastes. In Skyfall lives a teenager named Jade, born and raised in the 'slum district' Moros by an insane mother. He steals and cheats in any way he can to keep him and his boyfriend alive for another winter, all while longing for a better life, some place warm beyond the slums. Then a chance encounter brings Jade into the sights of the most important and most feared chimera in Skyfall: Elish Dekker. A man of statuesque elegance, cold beauty, and a reputation for being the most heartless and cruel chimera in existence. And though Elish may not understand why, he does know one thing for sure... the boy will be his pet.

Tell me a story. A panicked call from his ex-wife summons Ken Nicholson back to New Orleans, where his son has been attacked and left for dead. While his child's life hangs in the balance, Ken endures visions connected to a terrifying time from his past. As a teenager, he witnessed the brutal deaths of several young men, an act orchestrated by his benefactor, Travis Brugier. Following the shocking spectacle, Brugier kills himself before Ken's eyes. Now, decades later, someone wants Ken to remember, wants Ken to return to those violent days. With the lives of his estranged family and his lover, David, threatened, Ken has no choice but to follow his nightmares back to their origin. There he will battle a corrupt and powerful being that believes every life is a story to be captured and rewritten, a being that doesn't believe in happy endings. Welcome back to Wonderland.

The thrill of romance is something not too far from fear. The unknown sends shivers down our spines, much more so when it's truly otherworldly. In "Taken," five authors explore what it means to lose yourself in love.

The Dekker family is enjoying the longest stretch of calm they've had in years. But at what cost? Elish is a veritable slave with no will of his own, and although his siblings and his senglil wish for the old Elish to return, the man in question is adamant that he's happier this way. Even though Silas treats him like a dog, mental slavery is better than depression and eventual suicide, right? However, it seems that Elish may soon not have a choice. Forces outside of the family are hard at work, and someone from Elish's distant past is determined to turn him into the man he once was. No matter the consequences.

“ Why am I a punk? Because I wasn ’ t anything before, except different. And now it ’ s like I ’ m different, but with a vengeance. ” It ’ s been months since the suicide of Darby Crash, L.A. punk rock icon and lead singer of the Germs. He checked out on the same day John Lennon was shot: December 8, 1980. But for Rockets Redglare, it feels like yesterday. Darby was the hot-as-sun center of Rockets ’ s world. Part ringleader, part god, and all charismatic manipulator, Darby was as close to family as a hustler and street kid like Rockets might ever get. Now, as Rockets amps up for another night looking for tricks and scrounging a meal, Sex Pistols and X lyrics on repeat in his head, he knows he ’ s come to a turning point – the scene is changing, and nothing ’ s as easy as it was when Darby brought him into the fold. From the underground clubs to the back of the giant “ H ” in the Hollywood sign, Rockets and his crew of friends spend the night burning bridges, building new ones, tripping and talking and searching for answers. As the dark gives way to early morning, the punks and the cops engage in their ritual standoff – and Rockets faces the ultimate choice: Should he stay or should he go?

In a dystopian near future, when things spin out of control, Cade is the only person Nox can trust to help him save his teenaged son, Sam.

Twenty years after a deadly pandemic ravaged the world, Darragh Fearghal Anluan and the people of his village have carved out a hard but simple life in the Irish countryside. But with winter comes sickness, and Darragh must travel to Dublin in search of medicine. What he finds there is a ruined city ruled by a madman, where scavenging is punishable by death . . . or conscription. Ciaran Daly came to Ireland with aid and optimism, but instead was enslaved by the so-called King of Dublin. After months of abuse from the king and his men, he has no reason to believe this newcomer will be any different. Except Ciaran finds himself increasingly drawn to Darragh, whose brutish looks mask how sweet and gentle he really is. The tenderness Darragh feels for the king's treasured pet is treason, but it's hardly the only betrayal brewing in this rotten kingdom. Rebellions and rival gangs threaten the king's power, but not nearly as much as Darragh and Ciaran-whose only hope for freedom is the fall of the king.

While undercover on the Regency world of Regelence, Intergalactic Navy Captain Nate Hawkins meets Prince Aiden Townsend, an artist who rejects politics. They are drawn into a web of intrigue, conspiracy... and passion.
