Sport Funding and Finance provides a complete introduction to the macro-level and micro-level aspects of sport finance. It describes the evolution of sport from a kitchen-table operation into the sophisticated, boardroom-driven global financial industry that it is today. It uses the professional sports leagues of the US and Europe as an international benchmark, and explains why the financial context is so important for all managers working in sport. The book also provides a step-by-step introduction to the principles and practice of effective financial management, providing the reader with a complete set of professional tools and skills for use in the sport industry. Now in a fully revised and updated new edition, the book develops the reader's understanding by first explaining basic concepts in finance and accounting before progressing to more complex issues and ideas. It covers every key topic in financial management, including: Planning and strategy Budgeting Financial projections Fundraising Pricing Costing Feasibility studies Economic impact analysis Ratio analysis Every chapter includes a blend of theory, contextual material and real-world data and case studies from around the world, clearly linking principles to practice, as well as review questions and problem-solving exercises to test the reader's understanding. Sport Funding and Finance is the perfect foundation text for any degree-level course in sport finance, and an invaluable reference for any sport management professional looking to deepen their understanding of funding and finance.

A practical approach for entrepreneurs and investors Entrepreneurial Finance provides readers with the fundamental knowledge to finance, start, grow, and value new ventures, without the complex finance terms and calculations. This comprehensive yet practical approach incorporates a global perspective that appeals to entrepreneurs, investors, and students with diverse backgrounds, knowledge, and experience. From Facebook to Camera+, Gary Gibbons, Robert D. Hisrich, and Carlos M. DaSilva use real-world examples and their professional experiences to bring concepts to life. This text is one of the most readable books in the market without compromising high quality content and resources.

'Financial Accounting' arms readers with a practical set of tools and the confidence needed to use those tools effectively in making business decisions. It provides an overview of accounting information and establishes how a financial statement communicates the fiscal activities of a business.

This textbook covers the IAS/IFRS-syllabus of financial accounting on bachelor's and master's level. It covers how to prepare financial statements and tackles special problems in IFRSs-accounting, like asset revaluations, manufacturing accounting, share issues, financial instruments, group statements etc. The content is explained by more than 60 case studies completely illustrated with their bookkeeping entries and financial statements. All chapters outline the learning objectives, provide an overview, cover the contents of relevant IAS/IFRS-standards, include case studies and how-it-is-done-paragraphs. They end with a summary, the explanation of new technical terms and a question bank with solutions for checking your learning progress. On the internet, you can find further cases linked to the textbook by QR-codes and more than 350 exam tasks including solutions as well as youtube-videos from the author. The textbook helps you to learn IFRSs and to familiarise yourself with international accounting in English. It is an accurate translation of the textbook Bilanzen from the same author.

This textbook introduces you to international bookkeeping and accounting. It is designed as self study materials and covers the syllabus of an introductory class in accounting. After studying the Basics, you are well prepared to keep bookkeeping records and prepare financial statements like the balance sheet, the income statement, the cash flow statement and the statement of changes in equity. All chapters outline the learning objectives, provide an overview, include case studies and how-it-is-done-paragraphs. They end with a summary, the explanation of new technical terms and a question bank with solutions for checking your learning progress. On the internet, you can find more than 350 exam tasks including solutions as well as youtube-videos from the author. The textbook prepares you to study accounting and assists you with the transition from German bookkeeping to international accounting when qualifying for IFRSs.

Norton and Porter pack INTRODUCTION TO FINANCIAL ACCOUNTING, 7e, International Edition with decades of academic and real-world accounting experience. This student-friendly text provides the appropriate blend of academic rigor with step-by-step learning models that reach today's students. Instead of an abstract approach to accounting, you will journey with students through focus companies and their specific financial data and business strategies, imparting students with real-life experience and the decisions they may face. INTRODUCTION TO FINANCIAL ACCOUNTING, 7e, International Edition is a complete teaching system with numbered Examples tied to end-of-chapter homework for step-by-step learning, POD Reviews at the end of every section that provide instant feedback to students to help them master key concepts, as well as NEW Aplia and CengageNOW technology that contains gradable, algorithmic homework activities. Also new is a better and more intuitive system for notating transactions, so students understand better how each transaction affects the financial statements. Best of all, you can completely customize INTRODUCTION TO FINANCIAL ACCOUNTING, 7e, International Edition to include the content you want to cover and in the same sequence as your syllabus. This edition includes a discussion of the current environment of financial reporting, specifically the International Financial Reporting Standards.

How can managers analyze their current and future business strategies? This textbook introduces the fields of business analysis and strategic management to provide students with an understanding of the key questions that need to be asked to understand an organization's options. The second part of the book provides tools and techniques to help organize and improve corporate strategy. Uniquely, the authors provide resources to assess aspects of strategic goals which are sometimes overlooked such as financial performance, ethical and environmental considerations and business models. They cover a diverse range of companies from Supermarkets like Aldi and Tesco to Caermory Whiskey and Chinese manufacturing. This textbook is perfect reading for students who want to apply strategic thinking to organizations and benefits from the inclusion of new case studies throughout the text as well as 10 extended cases in a separate section.

Intended for a one-semester course in Accounting Information Systems taught at the sophomore, junior, or senior level at most two- and four-year schools. This revision is completely streamlined, includes new pedagogy, and is accompanied by a CD-ROM containing added coverage, making it flexible enough to suit a variety of different approaches to the course.

Nils Eikelmann describes the framework conditions for the application of value-based performance measures and critically analyses selected ones. The disclosure of value-based performance indicators is important in order to demonstrate the successful management of a company and to satisfy the increasing information needs of investors. However, companies adapt the developed theoretical concepts of value-based performance measures to their practical needs and thus investors are no longer able to compare the performance of companies. In addition, there is a variety of different metrics from which companies can choose. The empirical study aims to reduce existing research gaps and is divided into three parts: the analysis of annual reports of selected European companies, the calculation of a standardised value-based performance measure and a value relevance study in the form of an association study.

Financial statements are the cognitive instrument par excellence to understand a company's profitability, asset trends and financial performance. This volume is divided into three sections and addresses the main themes related to Financial Statements. The first part, "Financial Statement analysis - Main objectives and tools" illustrates the techniques commonly used to analyse and interpret financial statements: reformulations of statement of financial position and statement of comprehensive income and ratios. The second part, "IFRS - Accounting issues" presents the accounting issues of the most significant financial statements captions in accordance with International Financial Reporting Standards (IFRS) applicable on the date of publication of this manual. Consolidated financial statements are the subject of the third part, presenting the fundamental problems that gradually may arise from the consolidation process. The book is intended for all those - students or professionals - who intend to deal in a systematic way with the issues of construction and analysis of financial statements. The content of each chapter is enriched by examples, with the aim of facilitating understanding.
