## Getting Started Sdr Kits

My favorite recommendation is the NooElec NESDR Mini 2+ kit you can get on Amazon for around \$24 which includes the SDR, antenna adapter, extendable antenna with suction cup mount that also work magnetically. The cable, while only about a meter long, does allow you to put the antenna near a window or at the edge of your desk away from any electronics which helps improve reception quite a bit.

Where To Download Getting Started Sdr Kits Overview | Getting Started with RTL-SDR and SDR-Sharp and ... To get started I attached an antenna (542-563) to one of the RF ports and a simple “long wire” antenna to the High-Z port. As its name implies, this is just a long piece of wire that attaches to the P terminal. The other 2 terminals can be

A multipurpose dipole antenna kit. Great for those getting started with SDR. Includes: 1x dipole antenna base with 60cm RG174 cable and SMA Male connector. This is the dipole base where the telescopic antennas connect to. The short run of RG174 is decoupled from the base elements with a ferrite choke.
