Hacking the Kinect
(*Technology in Action*):
[Amazon.in ...](#)

On Kinect's release date, Adafruit Industries, an open-source hardware development group, posted a \$3,000 bounty for the first successful, open-source driver to make use of Kinect's motion-sensing technology outside of its Xbox 360 application [source: Adafruit]. The bounty was claimed by a hacker who didn't even own an Xbox and managed to create a Linux-based camera
