Annotation. This study of the social circumstances of Japanese intellectuals in the last quarter of the eighteenth century is based on

Online Library Hitachi Nr83a Manual

biographical data concerning 173 individuals. It deals with the image of intellectual life of that period in current scholarship, and with the self-image and ethos of scholars, authors, poets and artists. That self-image and ethos, however, often clash with the realities of

Online Library Hitachi Nr83a Manual

their everyday lives. This prosopographical investigation offers a new look at intellectual life on a basic level. The current image of intellectual life in the Tokugawa period is one of dissatisfaction and withdrawal, whereas the image that results

from this study is one of dynamism and interaction. For more (Dutch-language) titles on Japan, please visit: "http://www.aup.nl/do.php?a=show_visitor_booklist&b=series&series=21" > www.aup.nl/japan
