In this groundbreaking guide, former investment banker Philippe Espinasse explains the process of gathering cornerstone investors in connection with IPOs and other equity offerings. Using his trademark simple and jargon-free language, he details the targeting strategies, documentation, marketing, and allocation of shares and other securities to these reference shareholders, and analyses why and how they make or break today□s new listings across Asia□s key markets. This essential guide□and the first of its kind□contains key information on the legal framework for cornerstone investors in Hong Kong, Malaysia, and Singapore, and offers practical advice on how best to structure and conduct a cornerstone investor offering. It also discusses some of the more controversial issues associated with the practice of cornerstone investment and includes many real-life examples of cornerstone deals, sample documents, cornerstone investor profiles, an investor target list, and a comprehensive glossary. □There is no better person to shed light on the opaque world of cornerstone investing in Asian IPOs. Philippe Espinasse writes clearly, substantively, and expertly.□ □Jasper Moiseiwitsch, Asia companies and markets news editor, Financial Times □As engaging as it is informative. Espinasse has cut through legalese and jargon to create a pragmatic overview of this widely misunderstood, and distinctly Asian, investment banking concept. Packed with recent examples, this book doesn□t just teach you about cornerstones; it also provides an insider□s take of the region□s capital markets hubs.□ □Danielle Myles, capital markets editor, The Banker □Cornerstone investors have taken centre stage in Hong Kong□s IPO market. This book is needed now more than ever.□ □Matthew Thomas, Asia bureau chief, Euromoney Institutional Investor

What are the challenges that small countries face concerning innovation and what are the effects of globalization on their innovation systems? In this very interesting, rich and timely book, Edquist and Hommen compare ten different small national innovation systems from the Asia Pacific and Northern Europe that are rather advanced in their development. The answers that the authors give are convincing and relate not only to the unique characteristics of each national system that shapes innovative activity, but also to some commonalities that exist across these countries. Franco Malerba, Bocconi University, Italy This major book presents case studies of ten small country national systems of innovation (NSIs) in Europe and Asia, namely, Denmark, Finland, Hong Kong, Ireland, the Netherlands, Norway, Singapore, South Korea, Sweden and Taiwan. These cases have been carefully selected as examples of success within the context of globalization and as new economies where competition is increasingly based on innovation. To facilitate comparative analysis the ten studies follow a common structure, informed by an activities-based approach to describing and analysing NSIs, which addresses the critical issues of globalization and the consequences of innovation for economic performance. The final chapter compares fast growth and slow growth countries, concentrating on issues of innovation policy. The results illustrate the usefulness of an activities-based approach to studying NSIs, point to distinctive national roles within an increasingly differentiated international division of labour and address the key themes of selectivity and coordination in innovation policy. This valuable book presents one of the most significant, comprehensive and comparative country studies of NSIs in the last decade. It will have great import and should be widely read by every serious student and scholar of innovation studies.

Now in its 13th edition, Jill Poole's immensely popular Textbook on Contract Law has been guiding students through contract law for over 20 years. '...provides everything you want in a case book: a stimulating, thought-provoking and up to date account of contract law. It combines both fantastic academic commentary and superbly selected materials making it simply one of the best contract law casebooks.' Student Law Journal This is the seventh, fully updated, edition of Professor Burrows' Casebook, offering law students the ideal way to discover and understand contract law through reading highlights from the leading cases. Designed to be used either on its own or to supplement a contract law textbook, this book covers the undergraduate contract law course in a series of clearly presented and carefully structured chapters. The author provides an expert introduction to each topic and his succinct notes and questions seek to guide students to a proper understanding of the cases. The relevant statutes are also set out along with a principled analysis of them. In addition to cross-references to further discussion in the leading textbooks, an innovative feature is the summary of leading academic articles in each chapter. The book is designed not to overwhelm students by its length but covers all aspects of the law of contract most commonly found in the undergraduate curriculum.

When Bloomberg journalist Mark Pittman suddenly died, his widow spent four summers driving 31,152 miles searching for answers. In her fearless memoir, The Pink Steering Wheel Chronicles: A Love Story, author Laura Fahrenthold presents a moving portrait of marriage, motherhood and mourning as she captains a 1993 RV sprinkling her husband's ashes with their two young daughters and a stray dog in an epic quest for healing and understanding. Filled with insight and wit from a career in journalism, the story captures the family's adventures and misadventures, her deeply-layered love story, and her hilarious slice-of-life dispatches where the pink steering wheel becomes her spiritual GPS.

'Fascinating. . . This engaging book explores just how multiple languages are acquired and sorted out by the brain. . . Costa's work derives from a great fund of knowledge, considerable curiosity and solidly scientific spirit' Philip Hensher Spectator The definitive study of bilingualism and the human brain from a leading neuropsychologist Over half of the world's population is bilingual and yet few of us understand how this extraordinary, complex ability really works. How do two languages co-exist in the same brain? What are the advantages and challenges of being bilingual? How do we learn - and forget - a language? In the first study of its kind, leading expert Albert Costa shares twenty years of experience to explore the science of language. Looking at studies and examples from Canada to France to South Korea, The Bilingual Brain investigates the significant impact of bilingualism on daily life from infancy to old age. It reveals, among other things, how babies differentiate between two languages just hours after birth, how accent affects the way in which we perceive others and even why bilinguals are better at conflict resolution. Drawing on cutting-edge neuro-linguistic research from his own laboratory in Barcelona as well from centres across the world, and his own bilingual family, Costa offers an absorbing examination of the intricacies and impact of an extraordinary skill. Highly engaging and hugely informative,The Bilingual Brain leaves us all with a sense of wonder at how language works. Translated by John W. Schwieter

The classic reference work that provides annually updated information on the countries of the world.

This compelling novel follows four women as they learn to balance children, estranged husbands, boyfriends, and problems at work through their faith in God. Michelle, Tonya, Mrs. Judson, and Miz Ida. African-American, white, rich, poor -- they seemingly have nothing in common. Yet every day they face the complex realities of twenty-first-century urban life as they try to balance their needs with their belief in God. Through the course of a year, these women must come to terms with the past, discover their true identities, and recognize the unexpected miracles that reveal God's all-encompassing love. These four women entertain us and invite us to join in their lives. As they welcome us, they also introduce us to the men in their lives. The men play supporting roles, adding color and zest to the lives of the Cover Girls. Bishop Jakes knows the struggles real women encounter and the losses that make it difficult to face the future. He brings compassionate insight and deep wisdom to this novel and proves that he is not only a gifted preacher, but a born storyteller.

'Investor Protection and Corporate Governance' analyzes the impact of corporate governance on firm performance and valuation. Using unique datasets gathered at the firm-level the first such data in the region and results from a homogeneous corporate governance questionnaire, the book examines corporate governance characteristics, ownership structures, dividend policies, and performance measures. The book's analysis reveals the very high levels of ownership and voting rights concentrations and monolithic governance structures in the largest samples of Latin American companies up to now, and new data emphasize the importance of specific characteristics of the investor protection regimes in several Latin American countries. By and large, those firms with better governance measures across several dimensions are granted higher valuations and thus lower cost of capital. This title will be useful to researchers, policy makers, government officials, and other professionals involved in corporate governance, economic policy, and business finance, law, and management.
