Contemporary management accounting with Australian examples to bring the content alive for students. This edition prepares students for the rewards and challenges they might face in professional management accounting world through the development of analytical skills, values and behaviours that make management accountants effective in the workplace. It provides a decision-making framework and demonstrates how the analytical tools that students will learn prepare them to contribute to an organisation's success. Maintaining an Australian flavour within a global context it focuses on how management accounting helps managers to make better decisions. MyLab Accounting can be packaged with this edition to engage students and allow them to test their understanding while developing their problem-solving, analytical, critical thinking, and decision-making skills.

About the book Use the most current information to prepare students for their field · Emphasis on Global Issues reflect today's increasingly global business environment, including: · The importance of joint cost allocation in creating a trade war between poultry farms in South Africa and the United States (Chapter 16). · The text's examples of management accounting applications in companies are drawn from international settings. · Focus on merchandising and service sectors (versus traditional manufacturing settings) highlight the shifts in the US and world economies, includ.

The Demo Docs System of instruction replicates the classroom experience by providing more "I get it" moments outside of class. We've talked to tons of POA instructors and our editors have even taken the accounting course (numerous times!) to figure out the following issue in this course that is consistent: & Students understand (or "get it") right after you do a problem in class, but as soon as they leave class, with each passing hour, their ability to do the problems again and complete their homework diminishes to the point of them either having to come to office hours to get help, or they just quit and get behind in the course. & On top of this, you can end up getting behind in the course as well, in order to keep everyone on track. & The Demo Docs system helps to recreate the "I get it" moments outside of class-keeping both you and the students on track.

Griffith's name appears first on the earlier ed.

The third edition of Management and Cost Accounting continues to offer a wide ranging suite of resources to serve the needs of students, instructors and professionals. With a strong European focus, this text provides a definitive coverage of established and contemporary issues within Management and Cost Accounting. Drawing on the latest research and surveys, the authors bring technical and theoretical concepts to life through extensive use of real world examples and case studies. Features Richly illustrated with a striking new full colour text design and photographs to further engage the reader, reinforce the practical relevance of issues discussed. Extended and fully updated coverage of Strategic Management Accounting In depth European and Harvard Case Studies. A mix of new, and classic cases which pull together themes and offer a broader perspective of how management accounting can be applied in a range of different contexts. Cases include questions, and guided solutions are provided on the CWS accompanying the book. Extensive assessment material, including questions taken from past papers to allow students to consolidate learning and practice their exam technique. Questions are

No prior accounting or business knowledge is needed to successfully complete this book. Accounting 4/E pays very careful attention to making accounting information interesting and relevant to the reader.
