Introduction to Cryptography with Coding Theory | Wade ...

The level of math sophistication is equivalent to a course in linear algebra. Presents applications and protocols where cryptographic primitives are used in practice, such as SET and SSL. Provides a detailed explanation of AES, which has replaced Feistel-based ciphers (DES) as the standard block cipher algorithm.

Introduction to Cryptography with Coding Theory | 2nd ...

Here are solutions (part 1, part 2) to the coding theory problems from the last daily post. For the daily task, watch 3Blue1Brown's video on the Hamming code (20:05). It explains a different perspective than we did in class that really does a good job of explaining the clever idea behind it. Thanks to J.B. for pointing out
