Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America ' s premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede ' s wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid ' s, handle like a pro ' s. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension ' s condition. He outlines testing procedures that will help you gauge how well you ' re improving your suspension, along with your riding. And, if you ' re inclined to perfect your bike ' s handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto—promising a solution to virtually any handling problem.

A collection of stories that Carolyn Osborn has developed over two decades, Where We Are Now is about a single family, the Moores. Marianne is the main narrator of these stories about her mother's family. In the first tale, "The Greats," her relatives are so distant Marianne can only give brief glimpses of the eccentric Moores. "The Grands," an O. Henry Prize – winning story, first introduced readers to many of the characters who inhabit Where We Are Now. By knowing the Moores, we begin to know Marianne, who tries to understand them. Curious as she is, she must continually accept the mystery of reality. Aware of the need for family mythology, she orders her world as best she can with what she is given by reacting, reflecting, inventing, and enlarging on the fragments. Other narrators reveal omissions Marianne can never know. Marianne's life and the lives of the Moores have a definitively southern flavor; they mirror fading 19th-century morality, an acceptance of eccentricity, the habit of storytelling, a strong consciousness of place, and the influence as well as the particularity of family. These stories are an attempt to show the failures and triumphs of love, the necessity of forgiveness, and the usefulness of different sorts of families.

Northumbria is home to the loneliest stretches of moorland and coast in the country. The region has much to offer the nature lover, walking enthusiast, history buff, gastronome and gardener: rare wildlife, Georgian architecture, the Pennine hills, Hadrian's Wall, Alnwick Gardens and Alnwick Castle, featured in the Harry Potter films. Gemma Hall shares her love of Northumberland, Durham and Tyneside, guiding visitors through historic towns, cities and villages; across the Cheviot Hills and along Northumberland's Heritage Coast; to outdoor swimming spots, high altitude flower meadows and the wooded gorges of the Durham coast.
