Malet med bogen er at fortAelle om sproget - hvordan det er bygget op, og hvordan det bruges. Om lyd og skrift, ord og udsagn. Om historien bagved, om sproget i samfundet, om det videnskabelige studium af sproget. Sproget er et stykke vAerktoj, det fineste og mest komplicerede, vi har. Alligevel handterer vi det med stor behAendighed, blot fordi vi er vokset op med det. Det er det, der er mirakulost. Bogen er skrevet for den almindelige sproginteresserede lAeser, og eksemplerne er hovedsagelig danske, selv om der undervejs ogsa, til orientering og sammenligning, henvises til andre sprog. UNIVERS vil hvert ar prAesentere nye titler, hvori forende forskere vil prAesentere deres forskningsfelt under en bred overskrift. Bøgerne bliver relativt lettilgAengelige og vil forst og fremmest henvende sig til velorienterede personer uden for det enkelte forskningsomrade - eller med en fremtid inden for det. UNIVERS bygger pa en tro pa, at topforskerens faglige overblik og specialviden er den rigtige basis for at skrive om bredere emner og sAette et personligt prAeg pa fremstillingen. Bøgerne bliver altsa personlige, men ikke polemiske; de skal kunne lAeses med udbytte om fem eller ti ar, selvom diskussionerne i forskningsmiljoet har flyttet sig. UNIVERS er et forsog pa at genopvAekke eller stimulere en tradition for dannelse, dvs. for bred tvAerfaglig indsigt, der kan danne udgangspunkt for

kvalificerede diskussioner om samfundsforhold og udviklingen.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

The main purpose of the book is to explore basic music theory so thoroughly that the interested student will then be able to easily pick up whatever further theory is wanted. Music history and the physics of sound are included to the extent that they shed light on music theory. The main premise of this course is that a better understanding of where the basics come from will lead to better and faster comprehension of more complex ideas. It also helps to remember, however, that music theory is a bit like grammar. Catherine Schmidt-Hones is a music teacher from Champaign, Illinois and she has been a pioneer in open education since 2004. She is currently a doctoral candidate at the University of Illinois in the Open Online Education program with a focus in Curriculum and Instruction.

Pelle is still just a young boy when his father decides to move them from Sweden to the Danish island of Bornholm in search of riches. Those riches—of course—being nonexistent, they fall into the life of farm laborers. As Pelle grows up among the other lowly and poor residents of the island, their cares and worries seep into him, and he finds himself part of a greater struggle for their dignity. Pelle the Conqueror has been compared to Victor Hugo's *Les Misérables* in its themes and scope. Nexø had become involved in the Social Democratic movement in Denmark that flourished after the turn of the 19th century, and this work closely follows his journalistic observations of the struggles of the people. It was published in four books between 1906 and 1910, and was immensely popular; the first book in particular is still widely read in Danish schools, and was made in to an award-winning 1987 film starring Max von Sydow as Father Lasse. In this Standard Ebooks edition books one and four are translated by Jesse Muir, while books two and three are translated by Bernard Miall. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

This book explores the fascinating world of the record business, its technology, the music and the musicians from Edison's phonograph to the compact disc. The great artists - Caruso, Toscanini, Louis Armstrong, Elvis Presley and their successors - all achieved fame through the medium of records, and in

turn have influenced the recording industry. But just as important are the record producers, those invisible figures who decide from behind the scenes how a record will sound. The history of recording is also the history of record companies: the book follows the vicissitudes of the multinational giants, without neglecting the small pioneering labels which have brought valuable new talents to the fore.

The Music Business and Recording Industry is a comprehensive music business textbook focused on the three income streams in the music industry: music publishing, live entertainment, and recordings. The book provides a sound foundation for understanding key issues, while presenting the latest research in the field. It covers the changes in the industry brought about by the digital age, such as changing methods of distributing and accessing music and new approaches in marketing with the Internet and mobile applications. New developments in copyright law are also examined, along with the global and regional differences in the music business.

In Language Online, David Barton and Carmen Lee investigate the impact of the online world on the study of language. The effects of language use in the digital world can be seen in every aspect of language study, and new ways of researching the field are needed. In this book the authors look at language online from a variety of perspectives, providing a solid theoretical grounding, an outline of key concepts, and practical guidance on doing research. Chapters cover topical issues including the relation between online language and multilingualism, identity, education and multimodality, then conclude by looking at how to carry out research into online language use. Throughout the book many examples are given, from a variety of digital platforms, and a number of different languages, including Chinese and English. Written in a clear and accessible style, this is a vital read for anyone new to studying online language and an essential textbook for undergraduates and postgraduates working in the areas of new media, literacy and multimodality within language and linguistics courses.
