"Students love watching movies. Give them the tools to understand why. Building on students' enthusiasm for screened entertainment, Looking at Movies is more successful than any other text at motivating students to understand and analyze what they see onscreen. The Seventh Edition features new and refreshed video, assessment, and interactive media, making the book's pathbreaking media program more assignable and gradable than ever before. Looking at Movies gives instructors all they need to inspire students to graduate from passive watching to active looking"--

Looking at Movies gives instructors all they need to inspire students to graduate from passive watching to active looking.

The only writing guide a film student will ever need

Essential Cell Biology provides a readily accessible introduction to the central concepts of cell biology, and its lively, clear writing and exceptional illustrations make it the ideal textbook for a first course in both cell and molecular biology. The text and figures are easy-to-follow, accurate, clear, and engaging for the introductory student. Molecular detail has been kept to a minimum in order to provide the reader with a cohesive conceptual framework for the basic science that underlies our current understanding of all of biology, including the biomedical sciences. The Fourth Edition has been thoroughly revised, and covers the latest developments in this fast-moving field, yet retains the academic level and length of the previous edition. The book is accompanied by a rich package of online student and instructor resources, including over 130 narrated movies, an expanded and updated Question Bank. Essential Cell Biology, Fourth Edition is additionally supported by the Garland Science Learning System. This homework platform is designed to evaluate and improve student performance and allows instructors to select assignments on specific topics and review the performance of the entire class, as well as individual students, via the instructor dashboard. Students receive immediate feedback on their mastery of the topics, and will be better prepared for lectures and classroom discussions. The user-friendly system provides a convenient way to engage students while assessing progress. Performance data can be used to tailor classroom discussion, activities, and lectures to address students' needs precisely and efficiently. For more information and sample material, visit http://garlandscience.rocketmix.com/.

Why does a director choose a particular script? What must they do in order to keep actors fresh and truthful through take after take of a single scene? How do you stage a shootout—involving more than one hundred extras and three colliding taxis—in the heart of New York’s diamond district? What does it take to keep the studio honchos happy? From the first rehearsal to the final screening, Making Movies is a master’s take, delivered with clarity, candor, and a wealth of anecdote. For in this book, Sidney Lumet, one of our most consistently acclaimed directors, gives us both a professional memoir and a definitive guide to the art, craft, and business of the motion picture. Drawing on forty years of experience on movies that range from Long Day’s Journey into Night to Network and The Verdict—and with such stars as Katharine Hepburn, Paul Newman, Marlon Brando, and Al Pacino—Lumet explains how painstaking labor and inspired split-second decisions can result in two hours of screen magic.

FIFTH EDITION, UPDATED FOR 2020. The authoritative guide to producing, directing, shooting, editing, and distributing your video or film. Whether you aspire to be a great filmmaker yourself or are looking for movie gifts, this comprehensive guide to filmmaking is the first step in turning a hobby into a career. Widely acknowledged as the “bible” of video and film production, and used in courses around the world, The Filmmaker’s Handbook is now updated with the latest advances in HD and digital formats. For students and teachers, professionals and novices, this indispensable handbook covers all aspects of movie making. • Techniques for making dramatic features, documentaries, corporate, broadcast, and experimental videos and films • Shooting with DSLRs, video, film, and digital cinema cameras • In-depth coverage of lenses, lighting, sound recording, editing, and mixing • Understanding HDR, RAW, Log, 4K, UHD, and other formats • The business aspects of funding and producing your project • Getting your movie shown in theaters, on television, streaming services, and online
