"Magia oltre la Magia" è un'introduzione al cold reading, vista dal punto di vista di un illusionista. L'intento del libro, oltre ad una completa panoramica su tecniche e strategie, è quello di analizzare gli strumenti che la lettura a freddo offre per arricchire un effetto magico di ulteriore livello di meraviglia e mistero. Come? Matteo Filippini offre le sue risposte tra le pagine di "Magia oltre la Magia." Tra i contenuti del libro: definizione, origini, principi del reading, perché servirsi della lettura a freddo, rapport ed empatia, riflessioni sull'essere umano, principi etici, come strutturare un reading, i vari tipi di feedback, gestire gli errori, servirsi dell'intuito, l'uso di peek e center tear nel reading, ulteriori arguzie e finezze, utilizzo di strumenti complementari come i tarocchi e la lettura della mano, alcuni esempi di routine magiche con le quali usare la lettura a freddo, bibliografia commentata.

The 70th volume of the Eranos Yearbooks presents the work of the last three years of activities at the Eranos Foundation (2009-2011). It includes the papers given on the theme of the 2011 conference, About Fragility in the Contemporary World, together with talks given on the occasion of the seminar cycle entitled, Eranos Jung Lectures, which took place during the years 2010-2011 to commemorate the 50th anniversary of Carl Gustav Jung's passing. Eminent international scholars gathered to share their work, presented here primarily in English, along with some chapters in Italian. This publication carries additional special meaning in further consolidating the collaboration with the Fetzer Institute by presenting the manuscripts of the Dialogues on the Power of Love, held at Eranos between 2008 and 2011. This project follows the path of the original model of Eranos, especially the aspect of dialogue, searching for understanding and deepening crucial themes in the contemporary world. Contents: 2011 Eranos Conference: About Fragility in the Contemporary World 2008-2011 Fetzer Institute Dialogues at Eranos - The Power of Love: - Love in the Esoteric Traditions - Love in the History of Eranos - Love and Beauty in the Visual Arts - Love and the Social Bond - Love and the Musical Arts 2010-2011 Eranos-Jung Lectures The Greek word 'Eranos' means a 'banquet', to which every guest contributes. From 1933 onwards, the Eranos Conferences took shape in Ascona-Moscia (Switzerland), springing from the idea of Olga Fröbe-Kapteyn to create a 'Meeting Place of East and West'. Under the influence of the psychologist Carl Gustav Jung and other prominent leaders of that era, the Eranos Conferences found their way towards symbolical, archetypal, and mythological motifs. The Eranos gathering is symbolized by its famous Round Table, the image and meaning of which inspired many of the leading thinkers of the 20th century. For more than 70 years, depth psychologists, philosophers, theologians, orientologists, historians of religions as well as natural scientists find at Eranos a unique place where they could meet and exchange views. The rich collection of Eranos Yearbooks bears testimony to an immense and original work accomplished in various fields of learning.

This book is a Festschrift to Annamaria Simonazzi and embraces the themes that she has contributed to over the years through her insightful and inspiring works. It brings together contributions from a number of distinguished European economists, which pay tribute to her by engaging in a dialogue with her research, simultaneously reflecting on the process of growing economic disintegration in the European Union, its causes and its possible remedies. The book shows the deep interrelations between macroeconomic issues and the social sphere, and points to the need to rethink the very foundations of European economic policies as an effective antidote to growing imbalances and disintegration. In particular, the effects of austerity are assessed alongside the dimensions of inequality, gender discrimination, poverty, and unemployment, broadening the perspective also beyond the Eurozone. The authors envision a progressive society, in which investments in research and intelligent industrial policies govern the processes of technological change and drive the economy towards a more efficient and more equal model of development characterized by high productivity and high wages. While some chapters deal directly with policy issues, policy suggestions and proposals are scattered throughout the whole book. This volume will appeal to academics, economists, and policy-makers interested in understanding the policy response of European institutions to the challenges posed by both the Great Recession and subsequent developments in the European economies. The book is written in an engaging and accessible way, and the themes are broad enough to generate interest from the international public.
