However, this is not simply a briefer book with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

The world is currently in crisis, a financial crisis of 2008 up to 2012. The phenomena of financial crisis is not new, as the world experienced it on 1930's Great Depression, not to mention in the late 1980s and the famous 1996-2000 Asian financial crisis that held Indonesia and most countries in Asia in monetary crisis. Is there a way for countries to turn this? International Monetary Fund (IMF) came as a solution to cure those countries in need of fund that includes Indonesia. Indonesia is not cured. However, in 2012 Indonesia declared their pledge to IMF of 1 Billion dollar in terms of bonds and even the Indonesian president by UN Secretary-General is appointed as High-level Panel advisor of Millennium Development Goals beyond 2015. What is the relevancy of Indonesia pledge to IMF of 1 Billion dollar in the midst of

This proceedings volume presents new methods and applications in applied economics with special interest in advanced cross-section data estimation methodology. Featuring select contributions from the 2019 International Conference on Applied Economics (ICOAE 2019) held in Milan, Italy, this book explores areas such as applied macroeconomics, applied microeconomics, applied financial economics, applied international economics, applied agricultural economics, applied marketing and applied managerial economics. International Conference on Applied Economics (ICOAE) is an annual conference that started in 2008, designed to bring together economists from different fields of applied economic research, in order to share methods and ideas. Applied economics is a rapidly growing field of economics that combines economic theory with econometrics, to analyze economic problems of the real world, usually with economic policy interest. In addition, there is growing interest in the field of applied economics for cross-section data estimation methods, tests and techniques. This volume makes a contribution in the field of applied economic research by presenting the most current research. Featuring country specific studies, this book is of interest to academics, students, researchers, practitioners, and policy makers in applied economics, econometrics and economic policy.
