Grewal/Levy was designed for today ' s changing student population. It has a strong emphasis on experiential learning and focuses on the value that marketers create for the firm. This textbook also provides students with hands-on learning tools through Connect Marketing, and provides professors with updated tools every month through the monthly newsletter. With Connect Plus, students examine how firms analyze, create, deliver, communicate, and capture value by exploring both the fundamentals in marketing and new influencers, such as social media, all in a format that allows for instructor assessment of learning outcomes, and provides students with a tight integration of topics.

Adding Value to your Marketing Course - Marketers understand that even the best products and services will go unsold if they cannot communicate the value to the customer. Understanding this value-based approach is critical for marketing students today, and is at the forefront of this text, setting it apart. This approach is emphasized throughout the text, and demonstrated through the use of the Adding Value boxes found in each chapter. In their 4th edition of M: Marketing, Grewal and Levy present a concise, impactful, and easy to read approach to Principles of Marketing. The text delivers value to both instructor and student through the engaging style and online assignment and assessment options. With monthly updates provided in a newsletter and the dynamic video program, the instructor support provided will bring marketing to life in any class setting. With a new chapter on Social and Mobile Marketing, Grewal and Levy's M: Marketing continues to be among the most contemporary products for studying the principles of marketing today.

"Throughout this edition numerous examples of how students engage in marketing activities every day of their lives-either as consumers or sellers of a product or service. In addition to providing the traditional study and reinforcement tools of most principles of marketing products, we also offer ways to help students think critically about and apply core concepts"--

Grewal and Levy's Marketing is the first text published since the AMA introduced its new value-based definition of the word Marketing, making it the most modern and forward thinking of all principles of marketing offerings. It seeks to apply the marketing concept. Marketing and its supplementary package was built from scratch by focusing on what the market wants. The motto, Marketing Creates Value permeates this text and is stressed through the main themes of entrepreneurship, service global marketing, and ethics.

Now in a fully revised and updated 5th edition, Sports Marketing: A Strategic Perspective is the most authoritative, comprehensive and engaging introduction to sports marketing currently available. It is the only introductory textbook to adopt a strategic approach, explaining clearly how every element of the marketing process should be designed and managed, from goal-setting and planning to implementation and control. Covering all the key topics in the sports marketing curriculum, including consumer behavior, market research, promotions, products, pricing, sponsorship, business ethics, technology and e-marketing, the book introduces core theory and concepts, explains best practice, and surveys the rapidly-changing, international sports business environment. Every chapter contains extensive real-world case studies and biographies of key industry figures and challenging review exercises which encourage the reader to reflect critically on their own knowledge and professional practice. The book ' s companion website offers additional resources for instructors and students, including an instructors' guide, test bank, presentation slides and useful weblinks. Sports Marketing: A Strategic Perspective is an essential foundation for any sports marketing or sports business course, and an invaluable reference for any sports marketing practitioner looking to improve their professional practice.

Incorporating developments from both academia and industry, this exploration of brands, brand equity and strategic brand management combines a theoretical foundation with numerous techniques and practical insights. Suitable for both graduates and upper-level undergraduates.

Value-Added. Every Time. Grewal's value-based approach emphasizes that even the best products and services will go unsold if marketers cannot communicate their value.
