Kindergarten Textbook B

Math In Focus The Singapore

Math in Focus mirrors the original Singapore Math's layout with books A and B for each level for Teacher's Editions, student textbooks, and student workbooks, essentially splitting the course for each level into two parts. Kindergarten is the exception to this layout since it has only workbooks rather than separate texts and workbooks; there are four of these relatively thin kindergarten student workbooks.

Math in Focus: The Singapore

Approach - Cathy Duffy

Math in Focus is the newest program to incorporate the widely-used Singapore approach to math. Two key ways that the Singapore approach differs from more traditional programs are: Consistent use of models that allow students to tackle concepts that are normally delayed until later grades

Math In Focus Curriculum
Math in Focus is a more recent arrival on the scene (2009). Backed by Houghton Mifflin Harcourt, it has benefited from the favorable reputation that Singapore Math® materials enjoy and the marketing clout of a major publisher. While both series are based on Math from Singapore, there are subtle but significant differences between the two.
