Maximize the impact and precision of your message! Now in its fourth edition, the Microsoft Manual of Style provides essential guidance to content creators, journalists, technical writers, editors, and everyone else who writes about computer technology. Direct from the Editorial Style Board at Microsoft—you get a comprehensive glossary of both general technology terms and those specific to Microsoft; clear, concise usage and style guidelines with helpful examples and alternatives; guidance on grammar, tone, and voice; and best practices for writing content for the web, optimizing for accessibility, and communicating to a worldwide audience. Fully updated and optimized for ease of use, the Microsoft Manual of Style is designed to help you communicate clearly, consistently, and accurately about technical topics—across a range of audiences and media.

WWW may be an acronym for the World Wide Web, but no one could fault you for thinking it stands for wild, wild West. The rapid growth of the Web has meant having to rely on style guides intended for print publishing, but these guides do not address the new challenges of communicating online. Enter The Yahoo! Style Guide. From Yahoo!, a leader in online content and one of the most visited Internet destinations in the world, comes the definitive reference on the essential elements of Web style for writers, editors, bloggers, and students. With topics that range from the basics of grammar and punctuation to Web-specific ways to improve your writing, this comprehensive resource will help you: - Shape your text for online reading - Construct clear and compelling copy - Write eye-catching and effective headings - Develop your site's unique voice - Streamline text for mobile users - Optimize webpages to boost your chances of appearing in search results - Create better blogs and newsletters - Learn easy fixes for your writing mistakes - Write clear user-interface text This essential sourcebook—based on internal editorial practices that have helped Yahoo! writers and editors for the last fifteen years—is now at your fingertips.

Searchable electronic version of print product with fully hyperlinked cross-references.

A fully revised and updated edition of the bible of the newspaper industry

Get the latest information on standards for technical writing and editing straight from the experts. This new edition completely updates and expands the industry's leading guide to creating quality technical documentation and content.

Every complex product needs to be explained to its users, and technical writers, also known as technical communicators, are the ones who do that job. A growing field, technical writing requires multiple skills, including an understanding of technology, writing ability, and great people skills. Whether you're thinking of becoming a technical writer, just starting out, or you've been working for a while and feel the need to take your skills to the next
