In our view, the developments collectively known as narrative therapy offer some unique and helpful perspectives to the field of child and family therapy. The term narrative implies listening to and telling or retelling stories about people and the problems in their lives.

## ~~About Narrative Therapy with Children—Narrative Approaches~~

When narrative therapists work with children, they do not pathologize the problems children have, or totalize children with any kind of psychological problems. Instead, they look at the child ' s context, at how the child and the family are being taken over by the problem, and how—even in small ways—they are getting a leg up on the problem.
