In other words, politicians and bureaucrats don ' t succeed because they can ' t succeed. The very nature of government administration is weighted against success. Here are ten reasons why: I. Knowledge. Government policies suffer from the pretense of knowledge . In order to perform a successful market intervention, politicians need to know more than they can.

New York Times bestselling journalist John Stossel shows how the expansion of government control is destructive for American society. Politicians—and we voters—can dream of guaranteed incomes or green energy. But the mature response to cries of “ Yes, we can! ” should be “ No, we can ’ t ” —not when “ we ” means government. There is nothing that government can do that we cannot do better as free individuals. —John Stossel in *No, They Can ’ t* John Stossel debunks the most revered of society ’ s sacred cows in this spirited New York Times bestseller: our belief that government can solve our problems. Stossel insists that we discard the myth of the “ perfect ” government—left or right—and retrain our brain to rethink our lives as independent individuals in light of such topics as HEALTH CARE • DEFENSE SPENDING JOB CREATION • GUN CONTROL PUBLIC EDUCATION • ENERGY MINIMUM-WAGE LAWS • CLIMATE CHANGE THE NATIONAL DEBT • POLITICAL CORRECTNESS THE ASSAULT ON FOOD . . . and much more!

The Lord did not come as a political deliverer or social reformer. He did not rally supporters in a grandiose attempt to "capture the culture" for morality or greater political and religious freedom. Rather, His divine calling was to rescue the lost souls of individual men and women from sin and hell. In *Why Government Can't Save You: An Alternative to Political Activism*, author John MacArthur illustrates through Scripture that, regardless of the numerous immoral, unjuust, and ungodly failures of secular government, believers are to pray and seek to influence the world for Christ by godly, selfless, and peaceful living under that authority, not by protests against

the government or by acts of civil disobedience. Dr. MacArthur will explore these areas: Christians' responsibility to authority How and why we should support our leaders How to live righteously in a pagan culture The principle of paying taxes Jesus' lessons on tax exemptions The biblical purpose of government The principle and reasons for civil obedience. "To devote all, or even most, of our time, energy, money, and strategy to putting a façade of morality on the world or the appearance of 'rightness' over our governmental and political institutions is to badly misunderstand our roles as Christians in a spiritually lost world." ?John MacArthur

There's No Government Like No Government celebrates the belief in the human spirit unmolested by state-worship. It extols the value of individual judgment, based on perceptions, experience, and reason, and in the process derisively mocks the mindless blind faith in the inherent righteousness of the law. It excoriates the belief that politicians ought to have, or even could have, the ability to alter morality simply by scribbling some words on a piece of paper. It offers a systematic approach to debunking the myth of the state using a logical analysis of the concept of "government," in tandem with extracts of debates between the defenders of liberty and various authoritarians. The sheep themselves reveal the bogus nature of the supposed authority of all rulers, be they elected democratically or chosen otherwise, in their downright insane descriptions of "government." Various described as "General Motors," or "a group of people we elect to guarantee our rights," or the agency that "doesn't have to be morally correct - that's why it is government," the

insane belief deserves to be smashed, and this book is dedicated to doing exactly that. Keep it on your coffee table, in plain sight for all the state-worshipping control freaks to see, to be used as your answer when asked, "Who did you vote for?"

Examines how many free societies have fallen to tyranny and looks at the possibility that the United States could be next.

A magisterial study of the history and theory of one of the most controversial political movements Anarchism routinely gets a bad press. It's usually seen as meaning chaos and disorder -- or even nothing at all. And yet, from Occupy Wall Street to Pussy Riot, Noam Chomsky to David Graeber, this philosophical and political movement is as relevant as ever. Contrary to popular perception, different strands of anarchism -- from individualism to collectivism -- do follow certain structures and a shared sense of purpose: a belief in freedom and working towards collective good without the interference of the state. In this masterful, sympathetic account, political theorist Ruth Kinna traces the tumultuous history of anarchism, starting with thinkers and activists such as Peter Kropotkin and Emma Goldman and through key events like the Paris Commune and the Haymarket affair. Skilfully introducing us to the nuanced theories of anarchist groups from Russia to Japan to the United States, *The Government of No One* reveals what makes a supposedly chaotic movement particularly adaptable and effective over centuries -- and what we can learn from it.

Are Tea Party supporters merely a group of conservative citizens concerned about government spending? Or are they racists who refuse to accept Barack Obama as their president because he's not white? *Change They Can ' t Believe In* offers an alternative argument—that the Tea Party is driven by the reemergence of a reactionary movement in American politics that is fueled by a fear that America has changed for the worse. Providing a range of original evidence and rich portraits of party sympathizers as well as activists, Christopher Parker and Matt Barreto show that the perception that America is in danger directly informs how Tea Party supporters think and act. In a new afterword, Parker and Barreto reflect on the Tea Party ' s recent initiatives, including the 2013 government shutdown, and evaluate their prospects for the 2016 election.

Analyzes a series of public domain documents which demonstrate how the government has misled the public, engaging in deception about the objectives and scope of some of its programs and perpetuating wasteful spending and harmful cover-ups.
