This text provides nurses studying leadership theory with insight and guidance in motivating and leading staff. The concepts of transformational leadership are explored to direct the nurse leader in increasing productivity and retention of staff.

Be prepared for the opportunities that await you! In today's healthcare environment, the responsibilities and clinical practice of Licensed Practical Nurses and Licensed Vocational Nurses have expanded far beyond those of traditional settings. Build the knowledge you need to assume the leadership and management roles that you will be asked to fulfill and confidently navigate the increasingly complex environments in which you will practice. An easy-to-read writing style guides you every step of the way—helping you successfully transition from student to professional while still focusing on the humanistic aspects of caring.

Middle range theory has become a vital staple of nursing education and application to research. These theories, which lie between the working hypotheses derived from day-to-day research and the larger, systemic efforts to develop unified theories, cover the scientific underpinnings that guide nursing practice and research. This third edition of a two-time AJN Book of the Year Award contains three new theories that include cultural self-reliance, caring, and unitary appreciative inquiry. It revises and updates all other content, and provides ladders of abstraction for each theory to guide stud
