Editions of Organic Chemistry by T.W. Graham Solomons Inspiring and motivating students from the moment it published, Organic Chemistry has established itself in just one edition as the students' choice of organic chemistry text. This second edition takes all that has made Organic Chemistry the book of choice, and has refined and refocused it to produce a text that is even more student-friendly, more coherent and more logical in its presentation ...

Organic Chemistry: Amazon.co.uk: Clayden, Jonathan ... My Organic Chemistry classes this year, however, used Organic Chemistry by Wade (8th edition). Compared to the other book, Wade's book is a much easier read. The chapters range from 30- 60 pages each, and take a while to read, but they are much easier to understand compared to the other book.
