Palms and Cycads -
Gardenia.net

The key difference between
cycads and palms is that the
cycads are gymnosperms that

Download File PDF Palms And Cycads A Complete

are non-flowering plants while the palms are angiosperms or the flowering palms. Cycads and palms look similar due to their nicely arranged fan-like leaves. However, when analyzing keenly, we can identify a

Download File PDF Palms And Cycads A Complete

distinct difference between cycads and palms. Cycads are more similar to ferns than palms. Also, though cycads and palms look similar, they belong to completely different plant groups.
