Thoroughly revised and updated in this third edition, Perspectives on Marriage is a comprehensive and multidisciplinary anthology ideal for courses in the theology and spirituality of marriage. This edition features thirteen new articles and incorporates the best of contemporary perspectives on marriage and sexuality. The selections represent a wide range of approaches, from the historical and canonical to the sociological, psychological, and ministerial. Striking a balance between solid theological material and stimulating readings on today's issues, the volume explores marriage in its historical context; current views on the theology of marriage; the meanings and transitions of marriage; attitudes toward sexuality; communication, conflict, and change; commitment, divorce, and annulment; the spirituality of marriage; and various religious perspectives on marriage. The third edition includes a new section on issues that affect marriage--such as the commercialization of marriage and the financial stresses accompanying marriage--as well as new selections on such topics as same-sex marriage, cohabitation, the theology of dating, and counseling. Each essay is enhanced by a detailed editors' introduction and by helpful discussion questions. Rich, provocative, and challenging, Perspectives on Marriage, Third Edition, is the most extensive and up-to-date reader of its kind.

The first anthology ever published for use in the theology of marriage course taught at virtually every Roman Catholic college and university, this comprehensive, classroom-tested text is flexibly designed to accommodate a variety of approaches to teaching about marriage and the marital relationship, from the strictly historical and canonical, to sociogical, psychological, and even ministerial perspectives. Striking a balance between solid theological material and stimulating readings on issues of intense current interest, the essays explore historic views of marriage in the Jewish and Christian traditions, contemporary theological views of marriage as a sacrament, marriage within the context of family life and the church, modern attitudes toward commitment, fidelity, sexuality, and romantic love, the role and value of communication and conflict in marriage, transcending stereotypes, divorce and annulment, and inter-religious perspectives on marriage. The editors' introductions and questions for discussion accompanying each chapter and individual reading enhance the accessibility of the text, and an appendix reprints ecclesiastical documents on marriage commonly used in Roman Catholic dioceses in the United States to guide couples preparing for marriage or filing for an annulment.

What are Christian families called to be and do in contemporary society? Weaving together theology, social science, and her experience as a wife and mother, Julie Hanlon Rubio answers this provocative and timely question. She explores the marriage liturgy, the New Testament and Christian tradition and then reflects on the ways Christian husbands and wives, fathers and mothers, and children can live out their vocations in changing times. She concludes with chapters on divorce and the mission of the family. Relevant, academically oriented yet popularly written, and filling a need by its attention to family issues, this book will make an ideal text for courses in: --marriage. --family ethics. --social justice. --Christian ethics.

The collection reveals how scholars of the 1970s through the 1990s argued the importance of previously unconsidered questions about the shape of medieval familial experience, and how their mutual information and criticism has refined and added to this investigation in the intervening period.

'This book brings together a group of specialists who attempt to describe the process of interaction between the inner and personal and the outer and social. They illustrate what is happening to current marriage, particularly in its daily intimate experience. They do not attmpt to offer expert solutions. They describe practice as they see it.'This
