This new edition covers many significant changes impacting the petroleum industry including important updates such as current industry practice issues from a proprietary survey conducted by the Institute of Petroleum Accounting, and practical guidance on new standards of revenue recognition, joint arrangements, consolidated financial statements, and disclosure of interests in other entities which are of critical importance to those involved or interested in the petroleum industry. New chapters covering midstream operations, master limited partnerships, and SEC considerations have been added. The updated text will also address numerous operational issues that continue to evolve with the demand for capital, inherent industry risks, and the impacts of product price fluctuation.

Manual of Accounting - New UK GAAP forms part of the PwC Manual of Accounting series and addresses what is generally expected to be the last significant change in structure in UK Financial Reporting. In the first quarter of 2013 the Financial Reporting Council, after years of debate in the accountancy profession issued Financial Reporting Standards 100-102 which will largely replace the existing set of UK Financial Reporting Standards (29 Standards in force plus one for smaller companies). Companies are free to adopt these standards now but the likelihood is that most will wait until the mandatory adoption date of 1st January 2015. Manual of Accounting - New UK GAAP addresses the requirements of FRS 102 which is the new UK GAAP and will be adopted by all companies not wanting to move to IFRS and who are too large to implement the Financial Reporting Standard for Smaller Entities which in 2015 can be applied by companies with a turnover of £6,500,000 per year and a balance sheet of £3,260,000 per year. While the requirements of FRS 102 are in some ways less onerous than the existing UK set of standards, there will still be a large onus on companies and their advisors to plan properly as they make the transition to adopting the new standard. There are a number of factors accountants need to consider in adopting the new standard such as the way in which a number of areas will be accounted for e.g. subsequent expenditure on fixed assets; leases, and employee benefits. Also the terminology of the new standard will be unfamiliar to many, and there will be some changes to the format of the financial statements. Readers will benefit from the usual well-structured and practical nature of the commentary. Worked examples are prevalent and as new editions are published examples from real life companies will be added. The book focusses on each area of the financial statement in turn and explains how they are treated by FRS 102 as opposed to the existing UK GAAP. There are chapters covering various specialist sectors such as agriculture; financial institutions; oil and gas; insurance, and public benefit entities. The final chapter gives some guidance on the processes that need to be considered as businesses make the transition from the existing set of standards to FRS 102.

UK companies are governed by legal and other regulatory requirements impacting elements of financial statements that are common to users of both IFRS and UK GAAP. These are often referred to as the 'front half' of the financial statements. Written by PwC's UK Assurance Risk and Quality team, the manual includes practical advice based on PwC's work advising clients, partners and staff. The book will be of particular interest to finance directors, accountants, legal practitioners, company administrators, financial advisors and auditors. This year's edition provides guidance for UK quoted companies on the 'front half' of financial statements, including many illustrations and examples

Includes contributions from a team of experts from PwC, Deloitte, KMPG, Duff & Phelps, and TOPQ.

Owners and managers rely on today's accounting professional to identify and monitor enterprise risks and to provide quality assurance for a company's information systems. ACCOUNTING INFORMATION SYSTEMS, 10E focuses on three critical accounting information systems in use today: enterprise systems, e-Business systems, and controls for maintaining those systems. The text fully explores the integrated nature of AIS with its foundations in information technology, business processes, strategic management, security, and internal controls. Students will easily grasp even the most challenging subjects as they explore today's most intriguing AIS topics discussed in a conversational and relaxed tone rather than complex technical language. The tenth edition provides students with the necessary tools for organizing and managing information to help them succeed and protect the integrity of their employer's information system. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Manual of Accounting - Interim Financial Reporting 2016 contains PwC's comprehensive guidance on preparing interim financial reports under International Accounting Standards (IAS) 34, 'Interim financial reporting.' It includes a detailed commentary on the requirements of IAS 34 together with an illustrative set of condensed interim financial statements, including additional guidance in 'commentary' boxes on how to present this information. Also included in the book is a checklist of the minimum disclosures required by IAS 34. [Subject: Tax Law]

The Financial Reporting Handbook 2021 from Chartered Accountants Australia and New Zealand (Chartered Accountants ANZ) is designed to meet the demands of the ever-changing business environment. Developed for Chartered Accountants, accountancy students and other professionals working in Australia, the Handbook is a comprehensive guide to the Australian accounting standards. A companion to the Handbook is Chartered Accountants ANZ's Auditing, Assurance and Ethics Handbook 2021, which contains Australian and New Zealand auditing and assurance standards. Together, these are part of the suite of products and services available to Chartered Accountants ANZ members and the student and business community.

Written by PricewaterhouseCoopers (PwC), the Manual of Accounting IFRS 2015 PACK is the definitive guide to International Financial Reporting Standards (IFRS) for those reporting outside of the UK. *** In North America, this guide will be of relevance to Canada, which has adopted IFRS accounting standards, but not to the US, which uses US Generally Accepted Accounting Principles (GAAP). *** Published as a three volume set, the Manual of Accounting IFRS 2015 PACK provides practical guidance on the interpretation and application of all IFRS issued by the IFRS Foundation to December 2014 year end, and it contains practical worked examples and extracts from company reports, as well as model IFRS financial statements which help to illustrate the explanations. With input from over 100 members of PwC's Global Accounting Consulting Services team, it offers extensive insight based on PwC's IFRS experience around the world.
