1.1 The Star Fleet Battles Tactical Gaming System Star Fleet Battles is a game of starships. Each player in the game will personally command one starship (or sometimes more) which he will use in various scenarios to perform assigned missions. Star Fleet Battles is, at the same time, both complex in its mechanics and simple in its execution.

First came the news that a flying saucer had landed in Iowa. Then came the announcement that the whole thing was a hoax. End of story. Case closed. Except that two agents of the most secret intelligence agency in the U.S. government were on the scene and disappeared without reporting in. And four more agents who were sent in also disappeared. So the head of the agency and his two top agents went in and managed to get out with their discovery: an invasion is underway by slug-like aliens who can touch a human and completely control his or her mind. What the humans know, they know. What the slugs want, no matter what, the human will do. And most of Iowa is already under their control. Sam Cavanaugh was one of the agents who discovered the truth. Unfortunately, that

was just before he was taken over by one of the aliens and began working for the invaders, with no will of his own. And he has just learned that a high official in the Treasury Department is now under control of the aliens. Since the Treasury Department includes the Secret Service, which safeguards the President of the United States, control of the entire nation is near at hand . . . At the publisher's request, this title is sold without DRM (Digital Rights Management).

A Billion Suns is a wargame of interstellar combat that puts you in command of fleets of powerful starships, from squadrons of agile, but fragile, fighters, to hulking and powerful capital ships. When combined with some spaceship miniatures, a tape measure, a deck of playing cards and some dice, this rulebook provides everything you need to play exciting and tense tabletop

The Starfleet Reference Library: Stellar Cartography collects together ten original, never-before-seen large-format maps of the Star Trek universe. Pulled from the cartography archives of Starfleet Academy, these beautifully reproduced maps provide a rare opportunity to view the expanse of Federation space (and beyond) through the multiple lenses of the Galaxy's key players. The maps include an ancient Vulcan map, a Klingon Empire map from the pre-Organian Peace Treaty era (in the native Klingon), an official Romulan government map of the Empire, a native Cardassian Union map from the Bajor occupation, along with Federation maps from the modern era. Housed in a

Thrust miniatures. Over 75 individual ship classes are covered, from tiny corvettes to massive superdreadnoughts! This book includes all of the optional rules, weapons, and systems needed to replicate space combat in the Full Thrust universe. In addition, players may choose from two alternate movement systems to create the type of game they want to play. Finally, simplified construction rules are provided which will allow you to build your own starships to face off against those already in the book. Best of all, the ship designs within these pages are fully compatible with-and balanced against-ships from other Starmada settings without any further modification or adjustment. So what are you waiting for? Assemble your fleet, grab an opponent, and rule the stars! In order to play Starmada: Full Thrust, at a minimum you will need the free demo rules. A copy of the the
