Studies in Discourse Analysis. The book explores ways in which the formal methods of linguistics can cast light on the structure of verbal interaction, and in particular considers how successive utterances cohere together in continuous spoken discourse.

Studies in Discourse Analysis by Malcolm Coulthard

Studies in Discourse and Grammar is a monograph series providing a forum for research on grammar as it emerges from and is accounted for by discourse contexts. The assumption underlying the series is that corpora reflecting language as it is actually used are necessary, not only for the verification of grammatical analyses, but also for understanding how the regularities we think of as grammar emerge from communicative needs.

Critical Discourse Studies: Vol 17, No 5 - Taylor & Francis

Discourse studies look at the form and function of language in conversation beyond its small grammatical pieces such as phonemes and morphemes. This field of study, which Dutch linguist Teun van Dijk is largely responsible for developing, is interested in how larger units of language—including lexemes , syntax, and context—contribute meaning to conversations.

The Meaning of Discourse - ThoughtCo

Discourse Studies: "If China was a mysterious land in the past, it now engenders the most divergent kinds of imagination and responses possible.

(PDF) Chinese Discourse Studies - ResearchGate

Discourse analysis, also called discourse studies, was developed during the 1970s as an academic field. Discourse analysis is a broad term for the study of the ways in which language is used between people, both in written texts and spoken contexts.

Discourse Analysis: Observing the Human Use of Language

Historicizing discourse: -things only true within specific historical context. - in each period: Discourse produces forms of knowledge (differing from period to period) - knowledge and practices around all subjects are historically and culturally specific. They can not meaningfully exist outside the ways they are represented in discourse.

Cultural Studies Terms/Discourse - WikiEduicator

The term classroom discourse refers to the language that teachers and students use to communicate with each other in the classroom. Talking, or conversation, is the medium through which most teaching takes place, so the study of classroom discourse is the study of the process of face-to-face classroom teaching.
