Elucidates and argues for the author's concept of human history from the past to the present

It had been spoken of in whispers for centuries. It was the hope of the Lands of the Adoni. The very mention of it caused hearts to pound faster and eyes to fill with tears. David James and Tanya, Knights of Es-sob-en, were drawn into the Lands of the Adoni for their second visit, only to discover that two hundred years have passed since they last walked the green fields of Dula. Now at the two hundredth anniversary of the return of Logos, the Talking Sword, a figure appears. He claims to be the rightful King spoken of in Dulan prophecies. He presents himself to Queen Dianna to test his claim to the throne. Further, He claims that now is the time for the Battle of Es-sob-en.

Anne Jenkins is a PE teacher with a girl's hockey team in her charge. How she ends up in a forest on the planet of Ellekan pursued by Knights in armour with nets and swords she cannot imagine. Knocked out, the next time she wakes up she finds herself in a castle dungeon with the Crown Prince of Halafalon and only half of her girls. Prince Carl was as arrogant as he was charming. But he had a particular habit, a habit that would come close to killing him. Prince Harold had planned a pleasant afternoon on a picnic, now he was despatched by his father, the King, to search for his missing elder brother. It would be another futile venture, ending with Carl being discovered in some tavern, or in the arms of some wench. Lord William L.Roth should have been King. He knew it, and everyone else knew it. Now, when the artifact was complete, he would make it so. Sir Henry L.Crief shared Lord L.Roth's cause, and at one time he would have feared the consequences of his treason against the King. But with his wife at his side and the artifact to call upon, he now feared nothing, not even L.Roth himself. Sir Henry's wife was not his real wife, but she was an unusual lover. Concubine, mistress, some even called her his pet. It was an apt description. She was large, malevolent and ever hungry. She was called Gil-Yan, and she was a dragon. Five years before, Rolf L.Epine had been on a hunt with the Crown Prince. What he saw that day so horrified him that it changed his life forever. Since then, his life had been peaceful. Now that was set to change. Ancient technology, a war that spanned the galaxy and the consequences of a barbaric tradition returned to haunt them all, and even threatened to eat them...

In a land filled with fire and smoke and endless fighting, where knights fight dragons, there lives a little knight who wants to be big like the others, and fight like the others, and have a sword like the others. But his mother won't let him. Instead of a sword, she gives him a sunflower, which, as it turns out, can be mightier than a sword.
