Pound, Trisha Lee ...

Age 5 to 18. Article by Jennifer Piggott.
Published February 2011. Creativity in the
mathematics classroom is not just about
what pupils do but also what we do as
teachers. If we are thinking creatively
about the mathematical experiences we
offer our pupils we can open up
opportunities for them to be creative.

Make it clear to students that creativity
requires effort. The creative process is not
a simple "aha" that strikes without
warning. Tell students that truly creative
people must imagine, and struggle, and re-
imagine while working on a project.

A parent expressing such sentiments can hardly be conducive to a learning environment at home in which mathematics is seen by children as an essential and rewarding part of their everyday lives. [10, emphasis added] That mathematics should be to some extent intrinsically "rewarding" (as well as extrinsically) is for me critical for engagement.

The Potential and Challenges for Mathematics Teaching and ...

Inquiry-based mathematics learning is one strategy emphasizing problem solving, student centeredness, and rich mathematical discussions. Newman et al. (1996) used the term disciplined inquiry to signify for authentic task that engage students in discussions and solutions of real world problems and uses their prior
