We can change our hair colour by choice through using hair dyeing products.

Various chemical processes in hairdressing (like bleaching, tinting, neutralising) act on the natural pigments to change the hair's colour. However, hair colour can change for a variety of other

Online Library The Art Of Hair Colouring

reasons, including: Ageing can affect pigment production. As we age, melanin stops being made in our hair and new hairs grow without pigment, which is why they are white.
