1. Conserve water at home. Wasting water is one of the biggest ways individuals impact the health of the planet. Taking measures to use less water is something you can start doing right away. If you live in an area with a water shortage, this is even more important for the health of your region's environment.

5 Ways to Help Save the Earth - wikiHow

Here are 10 simple ways to conserve and protect the environment through small changes to your daily routine for a better world for you, your family, your community and all living things now and forever. 1. Create a compost heap in your garden or use a compost bin. This helps recycle food waste and other biodegradable materials.

10 Small Ways to Conserve and Protect Our Environment ...

In 2018 the United Nations' Intergovernmental Panel on Climate Change (IPCC) report, the U.N. suggests an additional 2.5 billion acres (1 billion hectares) of forest in the world could limit global warming to 2.7 degrees Fahrenheit (1.5 degrees Celsius) by 2050. That's a lot of trees, but you could plant one or two, right?
