"This is a government of the people, by the people, and for the people no longer. It is a government of corporations, by corporations, and for corporations." – Rutherford B. Hayes

American Government Books - Goodreads

The government of the United States is based on a written constitution. At 4,400 words, it is the shortest national constitution in the world. On June 21, 1788, New Hampshire ratified the Constitution giving it the necessary 9 out of 13 votes needed for the Constitution to pass. It officially went into effect on March 4, 1789.

Overview of United States Government - ThoughtCo

The structure of the United States government is a perfect example that gives the people—rather than the "subjects"—the right to choose their leaders. In the process, they determined the course of the new nation. The genius of the U.S. Constitution is no accident.

The Basic Structure of the U.S. Federal Government

The federal government of the United States is the national government of the United States, a federal republic in North America, composed of 50 states, a federal district, five major self-governing territories and several island possessions. The federal government is composed of three distinct branches: legislative, executive, and judicial, whose powers are vested by the U.S. Constitution in the Congress, the president and the federal courts, respectively. The powers and duties of these branche
