" -Patricia Holt, San Francisco Chronicle "Ellen Ullman writes unsparingly of the vivid, compelling, emotionally riven souls who gave us our new machines. By turns love story, tense psychological drama and comedy of (very bad) manners, "The Bug" is an edgy and irresistible journey into lives all too rarely visited by literary types."

The peculiar world of computer techies, mostly ignored in literary fiction, is a specialty of Ellen Ullman. In her first novel, *The Bug*, the main character is a computer programmer, Ethan Levin, working long hours at a Bay Area software startup circa 1985. The story of his life is told partly through the eyes of a test engineer named Roberta, who writes in the first person and sounds like a stand-in for the author.
