Charles Curran in his newest book *The Development of Moral Theology: Five Strands*, brings a unique historical and critical analysis to the five strands that differentiate Catholic moral theology from other approaches to Christian ethics—sin and the manuals of moral theology, the teaching of Thomas Aquinas and later Thomists, natural law, the role of authoritative church teaching in moral areas, and Vatican II. Significant changes have occurred over the course of these historical developments.

The history of Probabilism is given under this title, suffice it to say here that from the middle of the seventeenth century when the violent discussion of this question begins, the development of moral theology coincides with that of Probabilism and of other Probabilistic systems; although these systems touch only a small portion of morals and of moral truths and nothing is farther from the truth than the opinion, so wide-spread among the adversaries of Catholic morals, that Probabilism ...

[CATHOLIC ENCYCLOPEDIA: Moral Theology](#)

Moral theology, Christian theological discipline concerned with identifying and elucidating the principles that determine the quality of human behaviour in the light of Christian revelation. It is distinguished from the philosophical discipline of ethics, which relies upon the authority of reason

[Moral theology | Britannica](#)

The field of moral theology, its contents, and the boundaries which separate it from kindred subjects, may be briefly indicated as follows: moral theology includes everything relating to man's free actions and the last, or supreme, end to be attained through them, as far as we know the same by Divine Revelation; in other words, it includes the supernatural end, the rule, or norm, of the moral order, human actions as such, their harmony or disharmony with the laws of the moral order, their ...
