It stands simply as a record of those first days which we remember so vividly [the review was published on 30 November 1939, so those days were hardly ancient history!] and so achieves the rare distinction of being a documentary in the real sense of the word.

An account of the November revolution in Russia. Most of it deals with "Red Petrograd" cf. Pref.

"Your child can achieve great things." A few years ago, pregnant women in four corners of the world heard those words and hoped they could be true. Among them were Esther Okwir in rural Uganda, where the infant mortality rate is among the highest in the world; Jessica Saldana, a high school student in a violence-scarred Chicago neighborhood; Shyamkali, the mother of four girls in a low-caste village in India; and Maria Estella, in Guatemala's western highlands, where most people are riddled with parasites and moms can rarely afford the fresh vegetables they farm. Greatness? It was an audacious thought, given their circumstances. But they had new cause to be hopeful: they were participating in an unprecedented international initiative designed to transform their lives, the lives of their children, and ultimately the world. The 1,000 Days movement, a response to recent, devastating food crises and new research on the economic and social costs of childhood hunger and stunting, is focused on providing proper nutrition during the first 1,000 days of children's lives, beginning with their mother's pregnancy. Proper nutrition during these days can profoundly influence an individual's ability to grow, learn, and work-and determine a society's long-term health and prosperity. In this inspiring, sometimes heartbreaking book, Roger Thurow takes us into the lives of families on the forefront of the movement to illuminate the science, economics, and politics of malnutrition, charting the exciting progress of this global effort and the formidable challenges it still faces: economic injustice, disease, lack of education and sanitation, misogyny, and corruption.

An excellent bestsellers book for individuals who are looking for the best one to read.

On 7 August 1914 a French corps attacked towards Mulhouse in Alsace and was immediately thrown back by the Germans. On 14 August, two weeks before Tannenberg and three weeks before the Battle of the Marne, the French 1st and 2nd Armies attacked into Lorraine, and on 20 August the German 6th and 7th Armies counterattacked. After forty-three years of peace, this was the first test of strength between France and Germany. In 1929, Karl Deuringer wrote the official history of the battle for the Bavarian Army, an immensely detailed work of 890 pages, chronicling the battle to 15 September. Here, First World War expert and former army officer Terence Zuber has translated and edited this study to a more accessible length, while retaining over thirty highly detailed maps, to bring us the first account in English of the first major battle of the Great War

"The inspiring stories of a number of very different characters who used their Christian faith to cope with their experiences of the First World War." –Jacqueline Wadsworth, author of Letters from the Trenches
While a toxic mixture of nationalism and militarism tore Europe and the wider world apart from 1914 to 1919, there was one factor that united millions of people across all nations: that of a Christian faith. People interpreted this faith in many different ways. Soldiers marched off to war with ringing endorsements from bishops that they were fighting a Godly crusade, others preached in churches and tribunal hearings that war was fundamentally against the teachings of Christ. Whether Church of England or Nonconformist, Catholic or Presbyterian, German Lutheran or the American Church of Christ in Christian Union, men and women across the globe conceptualized their war through the prism of their belief in a Christian God. This book brings together twenty-three individual and family case studies, some of well-known personalities, others whose stories have been neglected through the decades. Although divided by nation, social class, political outlook, and denomination, they were united in their desire to "Fight the Good Fight." "John Broom looks at such beliefs during the first world war—the Tommies were always fighting for God, the king and their country . . . a fascinating study." –Books Monthly
"A detailed study of a usually hidden aspect of wartime social history, the topic of Christian faith. Fight the Good Fight has been meticulously researched and includes a wealth of previously unpublished material." –Come Step Back In Time

The well-respected historian Manfred Rauchensteiner analyses the outbreak of World War I, Emperor Franz Joseph's role in the conflict, and how the various nationalities of the Habsburg Monarchy reacted to the disintegration of this 640-yearold empire in 1918. After Archduke Franz Ferdinand's assassination in Sarajevo in 1914, war was inevitable. Emperor Franz Joseph intended it, and everyone in Vienna expected it. How the war began and how Austria-Hungary managed to avoid capitulation only weeks later with the help of German troops reads like a thriller. Manfred Rauchensteiner's book is based on decades of research and is a fascinating read to the very end, even though the final outcome, the collapse of the Austro-Hungarian Dual Monarchy, is already known. Originally published in German in 2013 by Böhlau, this standard work is now available in English.
