About The Book. Leading authority on the Islamic world and influential advisor to the Obama administration Vali Nasr shows that the West's best hope of winning the battle against Islamic extremists is to foster the growth of a vibrant new Muslim middle class. This flourishing of Muslim bourgeoisie is reshaping the mind-set, politics, and even the religious values of Muslims in much the same way the Western bourgeoisie lead the capitalist and democratic revolution in Europe.

The Rise of Islamic Capitalism: Why the New Muslim Middle ...

The rise of Islamic capitalism. If you are a proud Muslim, there are chances that you might find the title above a bit disturbing. Because for many people in the world – especially in my part of the world – the word “capitalism” means nothing other than greed, exploitation or injustice. However, if capitalism merely means an economic system of private property, free enterprise and free markets, then there would be nothing “un-Islamic” about it, as the economic history of the ...

The rise of Islamic capitalism - Hürriyet Daily News

Proto-capitalist economies and free markets were active during the Islamic Golden Age and Muslim Agricultural Revolution, where an early market economy and form of merchant capitalism took root between the 8th–12th centuries. A vigorous monetary economy was based on a widely-circulated currency and the integration of monetary areas that were previously independent. Business techniques and forms of business organisation employed during this time included contracts, bills of exchange, long ...

Capitalism and Islam - Wikipedia

In this sense the rise of Islamic fundamentalism is an expression of the impasse of capitalism in the region and the need for the oppressed masses to find a way out. Were Islamic fundamentalism to come to power in any of the countries where it is now developing as a force, the most likely case being Algeria, it would not solve any of the economic and social problems facing the masses.

“The Fall of Capitalism and the Rise of Islam” provides a critical analysis of the current financial crisis in the US and the world at large. The collapse of financial institutions, the crash of the housing market, the evaporation of trillions of dollars, the creation of virtual unreal wealth, and the decline of productivity are symptoms of the potential failure of the ideology of capitalism.
