The soul is legitimate, period. It doesn’t need validation. At least that was my perception and so I wrote The Seat of the Soul to share the things that were most important to me. The Dancing Wu Li Masters was designed to open the mind and The Seat of the Soul, is a book designed to open the heart. And this is often the sequence that many people encounter as they move into an expanded awareness of who they are and why they are here.

The Seat of the Soul by Gary Zukav

External Power vs. Authentic Power. Zukav argues in The Seat of the Soul for a new kind of evolution, a spiritual evolution of our species instead of a physical one. The terminology he uses is that we are evolving from five-sensory to multi-sensory beings. As five-sensory beings, we strove for mastery over the world around us, the things we could see, hear, smell, taste and touch.

It's not as difficult to assert that the heart is indeed the seat of the soul. That at least can be experienced. It's the realization of the Self or Soul, hidden in the depths of the heart, that will set us free from the wheel of birth and death associated with the Third Dimension.

The Heart Is “the Seat of the Soul”

Explores a new phase of human evolution that reflects a growing understanding about authentic, spiritual power based on cooperative beliefs and a reverence for life.

The anniversary edition of this beloved bestseller is celebrated in Prefaces by Oprah Winfrey and Maya Angelou and contains a new Foreword by the author, website links, and a new Study Guide to help readers find even deeper meaning and fulfillment. The Seat of the Soul encourages you become the authority in your own life. It will change the way you see the world, interact with other people, and understand your own actions and motivations. Beginning with evolution, Gary Zukav takes you on a penetrating exploration of the new phase humanity has entered: we are evolving from a species that understands power as the ability to manipulate and control—external power—into a species that understands power as the alignment of the personality with the soul—authentic power. Our evolution requires each of us to make the values of the soul our own: harmony, cooperation, sharing, and reverence for Life. Using his scientist’s eye and philosopher’s heart, Zukav shows us how to participate fully in this evolution, enlivening our everyday activities and all of our relationships with meaning and purpose. The Seat of the Soul has sold millions of copies around the globe, and as it changes lives, more and more people begin to live by the values of the spirit. Indeed, a new world is emerging, and this book brings its message to you.

In THE SEAT OF THE SOUL, Gary Zukav brilliantly set forth his concepts, explaining how the expansion of human perception beyond the five senses leads to a new understanding of ‘authentic power’. Then, in SOUL STORIES, he revealed how such concepts as intuition, harmony, sharing and forgiveness actually express themselves in other people’s lives. And now, in THE HEART OF THE SOUL, Zukav, together with his coauthor and spiritual partner, Linda Francis, takes the next important step in showing us how to actually apply these crucial concepts in our daily lives. Zukav reveals how true emotional awareness can transform the human experience. Although it is challenging and difficult, because it means becoming aware of suppressed pain, it is also enormously rewarding. But first the determination to explore every aspect of consciousness, and to cultivate those that contribute the most to life, must replace the desire to bury painful emotions. Ultimately emotional awareness can free us from the compulsions, fixations, obsessions and addictions that block our spiritual development - among them anger, workaholism, perfectionism, obsessive eating, alcohol, drugs, sex - and allow us to live a fulfilling and meaningful life. THE HEART OF THE SOUL will be a revelation for readers - a soul tool with which we can forge a greater emotional awareness to enable us to use our emotions in the creation of authentic power. It is a book to read not once, but several times, for it is a life-changing work that can transform our lives for the better.

The author of the legendary #1 New York Times bestseller The Seat of the Soul shows us step-by-fascinating-step how to create a life of love and where that will lead for humanity in this “unique and transformative book” (Ellen Burstyn, Academy Award–winning actress). Internationally acclaimed author and teacher, Gary Zukav, shares a new vision of power and hope in this time of extraordinary transformation. Universal Human gives us fresh tools to grow spiritually and shows us how to transform everyday experiences of hopelessness, emptiness, and pain into fulfillment, meaning, and joy. With his accessible and life-changing prose, he points us toward a startling new destination—a species that is beyond culture, religion, nation, ethnic group, and gender, a species whose allegiance is to Life first and all else second—and shows us how to get there. Universal Human examines our disintegrating social structures and the new ones that are replacing them. It shows us a new creation story—our new creation story—as we create it with our choices, our deeds, and our words. Authentic power—the alignment of the personality with soul—is replacing external power, the ability to manipulate and control. Zukav explains that the potential of a new era of humanity based on love instead of fear is upon us, but only we can bring it into being. Universal Human shows us how and “offers a ray of hope” (Booklist) for us all.

A new picture of the mind is emerging, and explanations now exist for what has so long seemed mysterious. This real understanding of how the biological brain works -- of how we work -- has generated a mood of excitement that is shared in a half-dozen intersecting disciplines. Philosopher Paul Churchland, who is widely known as a gifted teacher and expository writer, explains these scientific developments in a simple, authoritative, and pictorial fashion. He not only opens the door into the ongoing research of the neurobiological and connectionist communities but goes further, probing the social and moral dimensions of recent experimental results that assign consciousness to all but the very simplest forms of animals.In a fast-paced, entertaining narrative, replete with examples and numerous explanatory illustrations, Churchland brings together an exceptionally broad range of intellectual issues. He summarizes new results from neuroscience and recent work with artificial neural networks that together suggest a unified set of answers to questions about how the brain actually works; how it sustains a thinking, feeling, dreaming self; and how it sustains a self-conscious person.Churchland first explains the science -- the powerful role of vector coding in sensory representation and pattern recognition, artificial neural networks that imitate parts of the brain, recurrent networks, neural representation of the social world, and diagnostic technologies and therapies for the brain in trouble. He then explores the far-reaching consequences of the current neurocomputational understanding of mind for our philosophical convictions, and for our social, moral, legal, medical, and personal lives.Churchland's wry wit and skillful teaching style are evident throughout. He introduces the remarkable representational power of a single human brain, for instance, via a captivating brainWorld-Trade-Tower TV screen analogy. "Who can be watching this pixilated show?" Churchland queries; the answer is a provocative "no one." And he has included a folded stereoscopic viewer, attached to the inside back cover of the book, that readers can use to participate directly in several revealing experiments concerning stereo vision.A Bradford Book

In his bestselling book, THE SEAT OF THE SOUL, Gary Zukav's driving concept was 'multi-sensory perception', an innate sense that allows people to experience the world beyond the five senses, to listen harder to who they are and ultimately to save one's life. Now in SOUL STORIES, Gary Zukav brings this concept and many others vividly alive, with marvellous true stories of how they manifest themselves in individual lives. This book is enormously practical in the way the author builds on each specific story to a discussion of its application to the reader's needs, leading to a deeper understanding of authentic power and inner peace. And best of all, it is wonderfully readable and even more accessible than THE SEAT OF THE SOUL.

In his first major book since the legendary bestseller The Seat of the Soul, Gary Zukav reveals a revolutionary new path for spiritual growth. What began with an introduction to a major paradigm shift in The Dancing Wu Li Masters turned into a discussion of aligning our personalities with our soul in The Seat of the Soul; finally, in Spiritual Partnership, Zukav guides the reader on this practical path to authentic power.

In Soul to Soul, Gary Zukav addressed some of the most fundamental questions about the human experience, with profound answers that are of truly universal value. Now with Soul to Soul Meditations, Zukav provides 365 inspirational excerpts, one for each day of the year, with each page opening up new insights for reflection. The perfect gift for somebody you love or for yourself, the book is small enough to fit into a handbag, and take with you wherever you go. Think of these meditations as doorways through which soul to soul communication can enter your life and transform it. This lovely collection of meditations can be read independently of Soul to Soulor used as a companion piece.
