The Starving Artist’s Lampwork Project Book includes 18 illustrated step-by-step lampworked glass projects for the beginning to intermediate lampworker. Starting with a brief tutorial of basic lampworking methods, the techniques and projects included here were originally created for use in rehabilitation centers for soldiers returning from overseas after World War II. Also known as scientific glassblowing, lampwork is a method of manipulating glass rods and tubes in a gas torch flame to construct a variety of practical and artistic items. No furnace is required, and the necessary tools and materials can be readily obtained at reasonable cost.

Lampwork-the art of crafting glass beads and jewelry-is surprisingly easy and increasingly popular. Joan Gordon, former editor of Making Jewellery magazine, has gathered 14 of the world’s top glassmakers to teach you the techniques, from safety and materials to bead shapes and adornment. With their expert advice, you’ll quickly master the skills needed to create 26 stunning projects.

A guide to a popular craft offers beadmakers instructions for how to torch, wind, and cool beads, as well as various designs, including barrels, cones, and discs, and strategies for achieving a variety of colors and patterns.

Building on Volumes I and II of this series, this information-packed book will deepen and broaden every artist’s exploration of the highly addictive craft of lampworked glass. Printed entirely in full colour, Volume III features over 1300 photographs and diagrams, including detailed step-by-step demonstrations by 35 different artists, with dozens of finished works to inspire the advanced and beginning lampworker alike. The fascinating human enterprise of creativity is emphasised throughout this engaging and readable text, in historical references and the author’s personal travel accounts around the globe.

Learn how to make your own polymer clay beads and turn them into colorful accessories and decorations. Making Polymer Clay Beads offers beginning and veteran artists a comprehensive resource for crafting unique beads of all colors and shapes at home. From selecting the right equipment and working with raw clay to making dozens of different shapes and adding colorful effects, this all-in-one guide will aid you at every stage of your artistic journey. Step-by-step instructions and full-color photographs enable the reader to craft a wide variety of beads to be used in making handmade jewelry and decorations.

Highlighted by two hundred full-color photographs, a celebration of American crafts and decorative arts and the artists who create them showcases masterpieces of furniture, wood, ceramics, glass, fiber, jewelry, metal, and basketry from the past two centuries, along with a look at how craft has shaped American history, arts, vitality, and identity. 25,000 first printing.

“ There is enough detail to make unsuspecting readers into addicts. An excellent introduction. ” —Booklist Beads that are multicolored, grooved, feathered or foiled, and decorated with spots, dots, eyes, and stripes: no matter which of these designs in glass you choose, the results will be beautiful. Detailed instructions and magnificent photos, along with scores of valuable tips and tricks, guide crafters through an awesome array of techniques, making this the best guide to glass beading ever. The creative journey begins with making a simple bead; proceeds to easy variations, such as overwraps and raked patterns; and ends exquisitely with beads shimmering with different metals and featuring millefiori, sculpting, and hollowing. The author lives in Skokie, IL.

The book begins with a Foreword by Tina Oldknow, Curator of Modern Glass at the Corning Museum of Glass. There follows an insightful historical introduction which gives context to the artist pages that fill most of the volume. One or two full-colour pages per artist display recent work with descriptive text and a brief documentary -- by either the author or the artist. Dunham’s position as a colleague of the featured artists gives him a distinct perspective on the work as well as unique access to the makers and their process. Several of the lampworkers allowed themselves to be photographed while executing a piece, and the sequence of photographs illustrating their creative process adds to the reader’s understanding and appreciation of the work shown. An illustrated glossary of lampworking terminology concludes the text, making this a valuable reference for anyone interested in lampworked glass. Over 75 artists are presented.
