with meaning and purpose occurs within neural codes in spike trains of action potentials in synaptic networks. Through a lifetime of learning archived in memory, the mind of humans interprets neural codes enabled by the unique capacity for language.

Communication from

the Holy Spirit, as sender, to human minds, as recipients, draws upon current understandings of information and communication theory. The trigger for initiating spike trains as codes is postulated as an immaterial energy source by which the Holy Spirit communicates with

you have probably heard the phrase, "The Azusa Street Revival." But how much do you know, or how much have you heard about Azusa Street? As a Bible teacher, and as a student of Church history, Mary Peninger became intrigued with the Azusa Street story.

Azusa's story is one of the most powerful Revivals in Church History. Azusa Street was a Revival, which radiated from a mission house (which was a former livery stable). Azusa touched its world for Jesus Christ! So powerful was the Azusa Street Revival that its effects are still

being felt today, over 110 years later! Mary wanted to share the Azusa Street story with other believers. She created (and taught) this short series of lessons as an introduction to Azusa Street. This book is a brief look back, a visit, to the Azusa Street Revival.
