Towards Collective Liberation is for activists engaging with dynamic questions of how to create and support effective movements for visionary systemic change, namely those who wish to ensure that all movements are both feminist and anti-racist in nature. Drawing on two decades of personal activist experience and case studies of anti-racist social justice organisations, Crass insightfully explores ways of transforming divisions of race, class and gender into catalysts for powerful vision, strategy and movement building in the world today.

Chris Crass calls on all of us to join our values to the power of love and act with courage for a world where Black lives truly matter. A world where the death culture of white supremacy no longer devours the lives of Black people and no longer deforms the hearts and souls of white people. In addition to his own soul-searching essays and practical organizing advice in his "notes to activists," Chris Crass lifts up the voices of longtime white anti-racist leaders organizing in white communities for Black Lives Matter. Crass has collected lessons and vibrant examples of this work from rural working class communities in Kentucky and Maine, mass direct action in Wisconsin and New York, faith-based efforts among Jewish communities, Unitarian Universalists, and the United Church of Christ, and national efforts like Showing Up for Racial Justice (SURJ) and Jewish Voice for Peace."

A manifesto from one of America's most influential activists which disrupts political, economic, and social norms by reimagining the Black Radical Tradition. Drawing on Black intellectual and grassroots organizing traditions, including the Haitian Revolution, the US civil rights movement, and LGBTQ rights and feminist movements, Unapologetic challenges all of us engaged in the social justice struggle to make the movement for Black liberation more radical, more queer, and more feminist. This book provides a vision for how social justice movements can become sharper and more effective through principled struggle, healing justice, and leadership development. It also offers a flexible model of what deeply effective organizing can be, anchored in the Chicago model of activism, which features long-term commitment, cultural sensitivity, creative strategizing, and multiple cross-group alliances. And Unapologetic provides a clear framework for activists committed to building transformative power, encouraging young people to see themselves as visionaries and leaders.

An analysis of racism today and the thoughts on how we can work to bring it to an end.

Amidst war, economic meltdown, and ecological crisis, a "new spirit of radicalism is blooming" from New York to Cairo, according to Chris Dixon. In Another Politics, he examines the trajectory of efforts that contributed to the radicalism of Occupy Wall Street and other recent movement upsurges. Drawing on voices of leading organizers across the United States and Canada, he delivers an engaging presentation of the histories and principles that shape many contemporary struggles. Dixon outlines the work of activists aligned with anti-authoritarian, anti-capitalist, and anti-oppression politics and discusses the lessons they are learning in their efforts to create social transformation. The book explores solutions to the key challenge for today's activists, organizers, fighters, and dreamers: building a substantive link between the work of "against," which fights ruling institutions, and the work of "beyond," which develops liberatory alternatives.

In the tradition of Octavia Butler, here is radical self-help, society-help, and planet-help to shape the futures we want. Change is constant. The world, our bodies, and our minds are in a constant state of flux. They are a stream of ever-mutating, emergent patterns. Rather than steel ourselves against such change, Emergent Strategy teaches us to map and assess the swirling structures and to read them as they happen, all the better to shape that which ultimately shapes us, personally and politically. A resolutely materialist spirituality based equally on science and science fiction: a wild feminist and afro-futurist id(e)al adrienne maree brown, co-editor of Octavia's Brood: Science Fiction from Social Justice Movements, is a social justice facilitator, healer, and doula living in Detroit.

After years of engaging in various forms of anti-racism organizing, I discovered that the methods that were being used lent to further dehumanization of many parties involved, including myself. I was no longer comfortable participating in organizing that reinforced the hierarchal narrative of privilege, as I felt it to be false. I also felt that it did not allow well-meaning white anti-racist organizers to focus on their own humanity in the process. I developed this curriculum with the hopes that we could embark on a new, more humane discussion. One that is premature, yet bursting with potential. Through the combination of essays, suggested readings, film viewings and discussions, learners should have a thorough understanding of the system of white supremacy, racism, anti-racism organizing and how to shift the privilege narrative.

A radical Latina perspective on race, liberation, and identity Elizabeth Martínez's unique Chicana voice has been formed through over thirty years of experience in the movements for civil rights, women's liberation, and Latina/o empowerment. In De Colores Means All of Us, Martínez presents a radical Latina perspective on race, liberation and identity. She describes the provocative ideas and new movements created by the rapidly expanding US Latina/o community as it confronts intensified exploitation and racism.

A post-9/11 look at the new radicalism that has captured the imagination of activists worldwide.

The story of how a national grassroots network fought a resurgence of the KKK and other fascist groups during the Reagan years, laying the groundwork for today's anti-fascist/anti-racist movements. "Smash fascism! Read this book!"Tom Morello, songwriter and guitarist with Rage Against the Machine "Studying the John Brown Anti-Klan Committee will give readers an understanding of the complexity of deconstructing the weapon of white supremacy from the inside out. Thank you Hilary and James for the precision of this analysis, and the true north of this star."adrienne maree brown, author of Pleasure Activism and Emergent Strategy In June 1977, a group of white anti-racist activists received an alarming letter from an inmate at a New York state prison calling for help to fight the Ku Klux Klan's efforts to recruit prison staff and influence the people incarcerated. Their response was to form the first chapter of what would eventually become a powerful, nationwide grassroots network, the John Brown Anti-Klan Committee, dedicated to countering the rise of the KKK and other far-right white nationalist groups. No Fascist USA! tells the story of that network, whose efforts throughout the 1980s/which included exposing white supremacists in public office, confronting neo-Nazis in street protests, supporting movements for self-determination, and engagement with the underground punk scene.laid the groundwork for many anti-racist efforts to emerge since. Featuring original research, interviews with former members, and a trove of graphic materials, their story offers battle-tested lessons for those on the frontlines of social justice work today. Praise for No Fascist USA!: "Hilary Moore and James Tracy have written a magnificent book that not only corrects the record but helps explain the mercurial rise of white supremacist organizations in the 1970s, how the Klan was (temporarily) defeated, and why this period has been largely ignored. No Fascist USA! radically shifts our perspective, challenging the prevailing wisdom that racist terrorism rises in response to economic downturns, white downward mobility, or in a vacuum created by progressive alternatives. I love this book."Robin D.G. Kelley, from the foreword "No Fascist USA! is not only timely, but also essential in the present period of accelerated white supremacist activity and anti-racist organizing to combat it. In telling the story of the John Brown Anti-Klan Committee, the authors, without romanticizing or condemning, draw important lessons from the fifteen-year history of the group."Roxanne Dunbar-Ortiz, author of Loaded: A Disarming History of the Second Amendment (With its savvy blend of youth culture and street confrontation, the John Brown Anti-Klan Committee tried to stop Trumpism before Trump. They confronted the rise of white nationalism in prisons, workplaces, and music scenes when precious few paid attention to it. . . . Hilary Moore and James Tracy have gifted us with an urgent read.)Dan Berger, author of Captive Nation: Black Prison Organizing in the Civil Rights Era (James Tracy and Hilary Moore deliver a searing, bold new work that examines another painful and complicated chapter in American race relations. In an eye-opening account, they are able to connect the dots of the John Brown Anti-Klan Committee, a band of contemporary predominantly white activists, and its efforts to expose white supremacist organizations. With a fresh eye and new research, their book uncovers with stunning precision how these groups remain active and exposes some of their unlikely alliances.)Laurens Grant, filmmaker, The Black Panthers: Vanguard of the Revolution and Freedom Riders (We learned from history. You can too!!)Terry Bisson, author of Fire on the Mountain and former member of the John Brown Anti-Klan Committee "This book is a must-read for anyone wanting to understand the roots of what happened in Charlottesville, and the burgeoning white nationalist membership lists in the U.S. today. We cannot possibly take on the challenges we face without learning from the past. This book is a necessary and long overdue contribution to inform the way forward."Carla F. Wallace, co-founder, Showing Up for Racial Justice "I've waited thirty years for this book! Our emergency hearts have always driven uprisings to stop white terrorism, but it always takes more than black-bloc tactics in the streets to stop fascists. No Fascist USA! firmly connects today's militant anti-fascist street-fighting movements with important living radical histories to disrupt the cycles that keep the spectre of fascism alive in the modern era. The struggles faced by the John Brown Anti-Klan Committee continue today in our difficult arc towards collective liberation."Iscoot crow, author of Setting Sight: Histories and Reflections on Community Armed Self-Defense
